Development Aid George Mavrotas, Mark McGillivray, 2009-01-15 This book addresses several gaps in knowledge of aid allocation and effectiveness and provides new analytical insights Topics covered include the interface between aid allocation and perceptions of aid effectiveness the year on year volatility of aid and evaluation of the country level impacts of aid

Schools of Fiction

Morgan Day Frank, 2023-01-09 Throughout history American literature has provided an escape from the classroom yet authors like Twain Melville and Ellison remain key figures in high school and college curricula This book offers an account of this paradox examining the contentious but ultimately generative relationship between literary and scholastic culture in the US

Health planning reports title index United States. Bureau of Health Planning, 1981

The Steiner Tree Problem

Hans Jürgen Prömel, Angelika Steger, 2012-12-06 A very simple but instructive problem was treated by Jacob Steiner the famous representative of geometry at the University of Berlin in the early nineteenth century Three villages A B C are to be joined by a system of roads of minimum length Due to this remark of Courant and Robbins 1941 a problem received its name that actually reaches two hundred years further back and should more appropriately be attributed to the French mathematician Pierre Fermat At the end of his famous treatise *Minima and Maxima* he raised the question to find for three given points in the plane a fourth one in such a way that the sum of its distances to the given points is minimized that is to solve the problem mentioned above in its mathematical abstraction It is known that Evangelista Torricelli had found a geometrical solution for this problem already before 1640 During the last centuries this problem was rediscovered and generalized by many mathematicians including Jacob Steiner Nowadays the term Steiner problem refers to a problem where a set of given points $P_1 P_n$ have to be connected in such a way that i any two of the given points are joined and ii the total length measured with respect to some predefined cost function is minimized

Optometry: Science, Techniques and

Clinical Management E-Book Mark Rosenfield, Nicola Logan, 2016-06-23 An introduction to the theory and practice of optometry in one succinct volume From the fundamental science of vision to clinical techniques and the management of common ocular conditions this book encompasses the essence of contemporary optometric practice Now in full colour and
