Spragg,2019-12-01 America Ascendant vividly portrays the global crisis that brought the media and the government into an alliance that changed the course of American and world history President Franklin D Roosevelt organized

an extraordinary partnership between the U S government and America s media outlets to communicate to the reluctant and isolationist American public the nature of the threat that World War II posed to the nation and the world The coalition s aim was to promote the concept of American exceptionalism and use it to galvanize the public for the government s cause America Ascendant details the efforts of many prominent individuals and officials to harness the collective energy of the nation and guide the United States throughout World War II then describes its aftermath and the Cold War period Dennis M Spragg demonstrates how the news and entertainment of American broadcasters such as David Sarnoff William Paley and Elmer Davis helped rally the American people to fashion a new liberal democratic order to stop the global spread of Communism This media government alliance however was not achieved without difficulty Spragg highlights the competing visions and personalities that clashed as media and government leaders tried to develop the paradigm that ultimately shifted American cultural and political thought Throughout this searching history he sheds light on the underappreciated coordination between the media and the government to establish a liberal democratic world order and demonstrates why American exceptionalism still matters Subject Catalog Library of Congress, *Telegraphic Journal and Electrical Review* ,1928 *Popular Mechanics* ,1954-09 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle **Symposium on Biological Effects and Measurement of Radio Frequency/Microwaves** DeWitt G.
