Finally, concerning a third, Barro's methodology may be problematic. In his paper, Barro (1997) uses a series of 1000 random draws from the distribution of the residuals to estimate the confidence interval. This is not a standard method, and it is not clear how it is related to the standard error of the residuals. It is not clear how this method is related to the standard error of the residuals.

Employment in retail in England rose more than 100% in the 1990s, while growth was slower elsewhere. In the public sector, as retailing in business and the financial services industries grew, growth in the private sector was slower or even negative.
