Macroeconomics 6th Edition Test Bank:

Exploring Macroeconomics, 6th Edition Robert L. Sexton, Colin C. Kovacs, Peter N. Fortura, 2023-01-27 Exploring Macroeconomics Sixth Canadian Edition offers students a lively approach designed to take the intimidation out of economics. With its short self-contained learning units and its carefully chosen pedagogy, graphs and photos, this text helps students master and retain the basic principles of economics. In addition, the current events focus and modular format of presenting information makes Exploring Macroeconomics a very student accessible and user friendly text. Robert Sexton's section-by-section approach is designed to encourage economic literacy and help students appreciate how economics impacts both business and daily life. Sexton helps students build a solid understanding of economic principles by engaging them from the outset and providing them with multiple points of practice.

Test Bank for Introductory Economics John G. Marcis, Michael Veseth, 2014-05-10 Test Bank for Introductory Economics and Introductory Macroeconomics and Introductory Microeconomics is an instructor's aid in developing examinations for students to test their comprehension, recall, and ability to analyze and interpret the basic concepts discussed in Introductory Economics, Introductory Macroeconomics, and Introductory Microeconomics. With more than 2,000 five-response multiple-choice questions, the Test Bank reflects the structures of the texts. The questions cover macroeconomic problems: supply and demand, the problem of unemployment, inflation, and measuring economic activity. Other questions cover aggregate demand, aggregate supply, and the economy; fiscal problems; money and banking, as well as money, credit, and the economy. Some questions deal with monetarist theory, international trade, the foreign exchange market, international economics. Some interesting response choices concern the problems of the dollar, goals, trade-offs, scarcity, and choice; specialization; the micro side of demand and supply. Other questions deal with markets at work, consumer choice, production and costs, producer choice, monopoly, producers in competitive markets, capital and natural resource market. Professors and lecturers of economics and business courses will find the Test Bank very useful. Students of economics, whether they are economics majors or just taking the subject as a requirement in another course, will also benefit from it.
