**Lives of the Laureates, sixth edition** Roger W. Spencer, David A. Macpherson, 2014-12-05 Autobiographical accounts by Nobel laureates reflect the richness and diversity of contemporary economic thought and offer insights into the creative process. Lives of the Laureates offers readers an informal history of modern economic thought as told through autobiographical essays by twenty-three Nobel Prize laureates in Economics. The essays not only provide unique insights into major economic ideas of our time but also shed light on the processes of intellectual discovery and creativity. The accounts are accessible and engaging, achieving clarity without sacrificing inherently difficult content. This sixth edition adds four recent Nobelists to its pages: Eric Maskin, who illustrates his explanation of mechanism design with an example involving a mother, a cake, and two children; Joseph Stiglitz, who

recounts his field's ideological wars linked to policy disputes Paul Krugman who describes the insights he gained from studying the model of the Capitol Hill Babysitting Coop and the recession it suffered when more people wanted to accumulate babysitting coupons than redeem them and Peter Diamond who maps his development from student to teacher to policy analyst Lives of the Laureates grows out of a continuing lecture series at Trinity University in San Antonio which invites Nobelists from American universities to describe their evolution as economists in personal as well as technical terms These lectures demonstrate the richness and diversity of contemporary economic thought The reader will find that paths cross in unexpected ways that disparate thinkers were often influenced by the same teachers and that luck as well as hard work plays a role in the process of scientific discovery The Laureates Lawrence R Klein Kenneth J Arrow Paul A Samuelson Milton Friedman George J Stigler James Tobin Franco Modigliani James M Buchanan Robert M Solow William F Sharpe Douglass C North Myron S Scholes Gary S Becker Robert E Lucas Jr James J Heckman Vernon L Smith Edward C Prescott Thomas C Schelling Edmund S Phelps Eric S Maskin Joseph E Stiglitz Paul Krugman Peter A Diamond **Books in Print**

**Macroeconomic Measurement Versus Macroeconomic Theory** Merijn Knibbe,2019-12-06 Ideally scientific theory and scientific measurement should develop in tandem but in recent years this has not been the case in economics There used to be a time when leading economists or their students established or led statistical offices and took care that the measurements were consistent with the theory and vice versa Not anymore Macroeconomic theorists and macroeconomic statisticians do not even speak the same language any longer They do use the same words such as consumption investments or unemployment but the meanings can often be different This book maps the differences between macroeconomic theory and measurement and explores them in some detail while also tracking their intellectual historical and in some cases ideological origins It also explores the possible policy implications In doing so the book draws on two separate strands of literature which are seldom used in unison macro statistical manuals and theoretical macro papers By doing so the book

contributes to the effort to bridge the gap between them without compromising on the idea that a meaningful science of economics should in the end be based upon individual people and households and their social and cultural embedding instead of a representative consumer or Robinson Crusoe figure This work is essential reading for students economists statisticians and professionals *Real World Macro 24th Edition* Daniel Fireside, John Miller, Dollars & Sense, 2007-07 Covers macroeconomic basics monetary and fiscal policy productivity and investment inflation and unemployment Includes chapter on major controversies in macroeconomics *Children's Books in Print, 2007*, 2006 **Economics for Today** Allan Layton, Tim Robinson, Irvin Tucker, 2018-09-01 Economics for Today 6e simplifies the array of confusing economic analyses and presents a straightforward and balanced approach that effectively teaches the application of basic economics principles Only essential material is included in the book and key concepts are explained in clear and simple terms Written in an engaging and user friendly manner the book is designed for non majors although can also be used in these courses with a continued focus on ethics in economics sustainability and environmental economics housing stress development health happiness and debt crises Economics for Today 6e is also available in MindTap a personalised eLearning solution MindTap provides interactive graph builders online tests video content and access to Aplia to build student confidence and give you a clear picture of their progress **Study Guide to Accompany Gordon Macroeconomics** Joseph S.
