The Journal of Maarten Harpertszoon Tromp Charles Ralph Boxer, Maarten Harpertszoon Tromp, 1930 **The Journal of Maarten Harpertszoon Tromp Anno 1639** Maarten Harpertszoon Tromp, 1930 **The Journal of Maarten Harpertszoon Tromp** C. R. Boxer, 2015-12-03 This book presents an English translation of the 1639 journal of Dutch naval commander Maarten Harpertszoon Tromp 1598 1653 who led the Dutch fleet in a decisive victory over the Spanish at the Battle of the Downs during that year A highly detailed introduction illustrative figures and a bibliography are included

The Journal of Maarten Harpertszoon Tromp, Anno 1639 Marten Tromp (Admiral.), 1930 **Admirals of the World** William Stewart, 2014-11-26 This work provides biographies of more than 500 men and women who have served as admiral vice admiral or rear admiral While officers from the U S British French and Japanese navies make up the bulk of the work officers from 22 countries including Australia Canada Germany India Italy the Netherlands Russia and Spain are also included The main criterion for inclusion is that each person must have actively served in the rank of at least rear admiral but not necessarily in enemy action This effectively rules out people who were granted the rank on retirement as a courtesy title or posthumously The book also includes lists of admirals organized by nationality and by year of birth [The Dutch Navy of the Seventeenth and Eighteenth Centuries](#) Jaap R. Bruijn, 2017-10-18 This book is a reprint of Jaap R Bruijn s 1993 book *The Dutch Navy* which offers an English language overview of the history of the Dutch Navy in the seventeenth and eighteenth centuries It is divided into three chronological periods the old new and second rate navy Rather than presenting a history of naval conflict this volume approaches Dutch naval history from the following four angles operations administration officer duties and sailor duties It consists of a series foreword a new introduction detailing recent developments in naval historiography the original introduction providing a history of Dutch maritime history from the middle ages to the beginning of the seventeenth century a conclusion and a bibliography and index It explores the astounding amount of naval power belonging to such a sparsely populated nation plus the rapid rates of success and decline It confirms that the Dutch navy with its logic innovation and missteps alike provides an excellent case study of both the development of European bureaucracy and armed forces in the Early Modern period **John de Witt, Grand Pensionary of Holland, 1625-1672** Herbert Harvey Rowen, 2015-03-08 Known to his contemporaries for his sharpness of mind strength of purpose fortitude and good humor John de Witt was a brilliant leader whose career ended in a death of horror rarely paralleled in history Herbert Rowen s biography embraces all aspects of De Witt s political intellectual and personal life including his role as a mathematician admired by Newton an unphilosophical Cartesian and a political thinker The author describes De Witt s youth Dutch society of his day and his central part in the domestic and foreign politics of the Dutch Republic from 1651 to 1672 He puts De Witt s relation to the House of Orange in a new light more subtle than in the traditional history He also examines in detail De Witt s system of government as councilor pensionary of Holland Originally published in 1978 The Princeton Legacy Library uses the

Dutch Warships in the Age of Sail, 1600-1714 James Bender, 2014-12-01 This definitive study presents a complete account of the Dutch Republic s naval fleet during its golden age as a world power The Netherlands was by far the most important maritime power of the seventeenth century It dominated seaborne trade with the largest merchant fleet in the world Born out of an 80 year struggle against Spain for independence the Dutch republic relied on naval power to protect its freedom promote its trade and defend its overseas colonies Yet the ships that made up its fleets are among the least studied of any in the age of sail This is partly because a decentralized administration of five separate admiralties often producing ships of the same name at the same time as well as competing systems of measuring ships all lead to confusion and error In this comprehensive volume James Bander delivers the first definitive listing of all Dutch fighting ships whether purpose built purchased hired or captured from the heyday of the United Provinces Each entry is complete with technical details and summaries of the ship s career It also provides administrative economic and technical background and outlines the many campaigns fought by one of the most successful navies in history

Description of the Principal Tombs in the Old Church at Delft G. Morre, 1903

The Frigid Golden Age Dagomar Degroot, 2018-02-08 Dagomar Degroot offers the first detailed analysis of how a society thrived amid the Little Ice Age a period of climatic cooling that reached its chilliest point between the sixteenth and eighteenth centuries The precocious economy unusual environment and dynamic intellectual culture of the Dutch Republic in its seventeenth century Golden Age allowed it to thrive as neighboring societies unraveled in the face of extremes in temperature and precipitation By tracing the occasionally counterintuitive manifestations of climate change from global to local scales Degroot finds that the Little Ice Age presented not only challenges for Dutch citizens but also opportunities that they aggressively exploited in conducting commerce waging war and creating culture The overall success of their Republic in coping with climate change offers lessons that we would be wise to heed today as we confront the growing crisis of global warming

accuracy to the latest electronic aids to observation and ranging Technology and marksmanship from the Crimean War to the present day is examined in detail The role of the sniper was largely ignored until the Winter War of 1939 40 between Finland and the USSR showed what could be achieved by specialist marksmen Finn Simo Häyhä amassed 505 kills in less than a hundred days a lesson learned by the Red Army to its cost By the Germans invasion of 1941 the Russians were prepared when the war ended in addition to men such as Vasilij Zaytsev a Stalingrad hero with 242 accredited kills the USSR had trained more than 2000 women as snipers After 1945 the sniper's reputation declined again However the Vietnam War seemingly unending Middle Eastern conflict internal strife in Sri Lanka and ever present urban threats have given new impetus not only to sniping but also to the development of new and more effective weaponry **Armada** Colin Martin, Geoffrey Parker, 2023-01-23 The definitive history of the Spanish Armada lavishly illustrated and fully revised Will surely become the definitive account Stephen Brumwell Wall Street Journal In July 1588 the Spanish Armada sailed from Corunna to conquer England Three weeks later an English fireship attack in the Channel and then a fierce naval battle foiled the planned invasion Many myths still surround these events The genius of Sir Francis Drake is exalted while Spain's efforts are belittled But what really happened during that fateful encounter Drawing on archives from around the world Colin Martin and Geoffrey Parker also deploy vital new evidence from Armada shipwrecks off the coasts of Ireland and Scotland Their gripping beautifully illustrated account provides a fresh understanding of how the rival fleets came into being how they looked sounded and smelled and what happened when they finally clashed Looking beyond the events of 1588 to the complex politics which made war between England and Spain inevitable and at the political and dynastic aftermath Armada deconstructs the many legends to reveal why ultimately the bold Spanish mission failed
