Japanese War Crimes and Related Topics: A Guide to Records at the National Archives United States. National

Archives and Records Administration, 2007. This finding aid will help researchers interested in Japanese war crimes war criminals and war crimes trials to navigate the vast holdings of the U S National Archives and Records Administration at College Park NARA. It will also be useful to anyone interested in military intelligence political diplomatic economic financial social and cultural activities in the Far East during 1931-1951 as well as to those searching for information regarding Allied prisoners of war the organization functions and activities of American and Allied agencies and the Japanese occupation of countries and the American occupation of Japan. While not aimed at researchers interested in the strategic and tactical military and naval history of the war in the Far East this finding aid may nevertheless be useful to those with such interests if only to identify record groups and series of records that may bear on those topics. This finding aid covers records from over twenty record groups and includes materials declassified under the Japanese Imperial Government Disclosure Act of 2000 P L 106 567 as well as records that were never classified and those declassified before the passage of the Disclosure Act. Because the process of identifying declassifying accessioning and processing of records under the Act is taking place as this finding is being compiled late arriving records may not be identified in this finding aid. Researchers should consult the IWG Web site <http://www.archives.gov/iwg> for a complete and up to date list of records declassified under the Japanese Imperial Government Disclosure Act. Federal agencies involved in the identification and declassification of relevant classified records ascertained that there were relatively few pertinent records that were still classified. Most relevant records were either never classified or were declassified decades before the Act and were already in NARA's custody. While this finding aid's coverage is broad it is not comprehensive. Researchers may find other relevant series of records within the record groups mentioned or not mentioned. Researchers are encouraged to use other finding aids and consult with NARA staff to locate records of interest. In addition the National Archives at College Park holds nontextual records such as still photographs and motion pictures that researchers may want to examine. Other NARA facilities hold many records and donated material related to World War II including records related to the subjects covered in this finding aid. This is particularly true of the Franklin D Roosevelt the Harry S Truman and the Dwight D Eisenhower archives as vast mountain ranges of records with the archivists guiding the expeditions. Explorations on familiar well trodden paths produce new perspectives when examined with fresh eyes and imagination.

Tackett, 2014-04-21 Diagnosing Borderline Personality Disorder BPD in young people has long been a tough call for clinicians either for fear of stigmatizing the child or confusing the normal mood shifts of adolescence with pathology. Now a recent upsurge in relevant research into early onset BPD is inspiring the field to move beyond this hesitance toward a developmentally nuanced understanding of the disorder. The Handbook of Borderline Personality Disorder in Children and Adolescents reflects the broad scope and empirical strengths of current research as well

as promising advances in treatment This comprehensive resource is authored by veteran and emerging names across disciplines including developmental psychopathology clinical psychology child psychiatry genetics and neuroscience in order to organize the field for an integrative future Leading edge topics range from the role of parenting in the development of BPD to trait based versus symptom based assessment approaches from the life course trajectory of BPD to the impact of the DSM 5 on diagnosis And of particular interest are the data on youth modifications of widely used adult interventions with session excerpts Key areas featured in the Handbook The history of research on BPD in childhood and adolescence Conceptualization and assessment issues Etiology and core components of BPD Developmental course and psychosocial correlates Empirically supported treatment methods Implications for future research assessment and intervention The Handbook of Borderline Personality Disorder in Children and Adolescents is a breakthrough reference for researchers and clinicians in a wide range of disciplines including child and school psychology and psychiatry social work psychotherapy and counseling nursing management and research and personality and social psychology
