

Quick Reference Guide

Audi A6 Audi A6 Avant

Dear Audi driver,

We are happy to welcome you into the family of Audi drivers. This Quick Reference Guide will give you a quick and clear overview of the operation and function of your vehicle. You'll also find descriptions of some additional features. Keep in mind that not all vehicle features are described in this Quick Reference Guide.

This Quick Reference Guide is not a substitute for the Owner's Manual. The Owner's Manual contains detailed information about all your vehicle's features plus important warnings and information about passenger safety. Please read it carefully.

We wish you safe, reliable and enjoyable driving!

Please check the Owner's Manual for additional important details and safety information.

Note: * Denotes features optional or unavailable on some models.

LOCKING SYSTEM

The power locking system locks and unlocks doors, the rear lid and fuel filler flap, simultaneously. You can operate the system by remote control or using the keys.

Folding master key with remote control

Press the appropriate button for about 1 second.

1. **Unlock button**
To unlock just the driver's door press the button once. To unlock all doors and the rear lid press the button twice.

Note: If the door or rear lid is not opened within 30 sec., the vehicle automatically relocks.

2. **Rear lid button**
To unlock the rear lid, press button for at least 1 second. Then open lid.

3. **Lock button**
If the door and rear lid are correctly closed, all four turn signals will blink twice.

4. **Unlocking the master key**
Press the release button. To close the key again, press

the button and fold the key flat back in.

5. **PAUC button**
To activate the PAUC function (passive anti-theft), press the button. To cancel, press again.

Note: All windows will open if you insert the key in the driver's door and hold it in the position used to unlock the doors. To close all the windows, hold the key in the position used to lock the doors.

6. **WARNING: Do not leave your vehicle unattended with the key in the ignition. If all doors are unlocked, the vehicle will be locked. In an emergency, it is not possible to open the door. It is also possible to lock the key. (Features not available on the vehicle could not be shown in an emergency.)**

SEATS

1. **Head restraint**
To put up, grasp firmly with both hands and adjust. To push down, press the release button and adjust.

2. **Lumbar support adjustment**
Adjust the lumbar support by pressing the switch.

3. **Seatback adjustment**
Press the switch in the direction of the arrows.

4. **Height and forward/backward adjustment and**

5. **Seat cushion forward/backward**
Press the switch in the direction of the arrows.

6. **Seat cushion forward/backward**
Press the switch in the direction of the arrows.

7. **Seat forward/backward**
Press the switch in the direction of the arrows.

8. **Safety belt height adjustment**
Push the adjuster up or down to adjust the height. After you've adjusted the safety belt height, pull on the belt on many times to make sure the adjuster is locked in place.

9. **WARNING: These seat systems can most never rely on a moving adjuster. The adjuster is not a substitute for a proper seat belt. The risk of personal injury is increased with increasing movement of the seatback. Safety belts only offer protection when the seatback is correctly and rigidly and properly positioned on the body. Adjust your seats only when the vehicle is at a complete standstill.**

PASSENGER SAFETY

All vehicle occupants, including those in the rear, must buckle up for safety - even if it's just a short trip. For the best possible protection by the seat belts and airbags.

Correct seat position

On seat position, the front seats are close to the steering wheel or the instrument panel. Occupants should sit in an upright position. The top of each headrest should be at the seat occupant's eye level or higher. Occupants should keep their feet in the foot well while the vehicle is being driven.

Correct safety belt position

The shoulder belt must be positioned over the center of the occupant's shoulder. The top portion of the belt must be positioned as low as possible across the pelvis. The belt should always be snugly fast. Buckle tight.

10. **WARNING: The distance from the center of your breastbone to the center of the safety cover on the steering wheel or instrument panel must be at least 10 inches (25 cm) or more.**

11. **WARNING: Thoroughly review your Owner's Manual for warnings and other important information about proper restraint use and reducing the risk of injury in accidents. Failure to properly use restraints systems can cause serious personal injury.**

12. **WARNING: Always wear your seat belt before driving off. Always buckle your seat belt properly. Children 12 years old and younger must ride in the rear seat and be properly restrained as described in the Owner's Manual. They are not to be in the front seat. Do not replace safety belt use.**

13. **WARNING: Never install rear-facing child seats or infant carriers on the front passenger seat. A child will be seriously injured when the passenger airbag inflates.**

POWER ROOF*

Turn the switch to open/close the power roof.

1. **Open**
2. **Close**
3. **Roller**
4. **Roller**

5. **Roller**
Pull or push the switch to tilt the roof up or down.
