The Conscious Teacher Deborah Nichols Poulos,2020-01-13 The Conscious Teacher is about all kinds of strategies and techniques educators might employ to become more effective teachers In an accessible conversational style Deborah Nichols Poulos presents unique approaches to teaching that will inspire new and veteran teachers alike She begins with her personal story of not being able to read all through elementary school Her early failures convinced her she was dumb At first she struggled but when she still failed she adopted an avoidance strategy that served her well until junior high An experience in the seventh grade flipped a switch and started her on a journey to becoming an outstanding student and later to applying the lessons she learned as a child to her own teaching What makes The Conscious Teacher unique are the inspirational lessons that are unlike what most teachers get in their teacher education courses or student teaching Ms Nichols Poulos points out for example that from the very first day it is important that students learn they will be treated with dignity and respect no matter what And especially helpful are the steps Ms Nichols Poulos employs to set up a behavior management plan that works She explains the strategic steps she takes

before school starts how essential it is to get to know each student before they walk into class on that first day She also illustrates how setting up classroom routines helps students know what to expect and how to make the best use of every minute And she emphasizes the importance of the parent student teacher team and includes many examples of how to communicate with and involve parents even those who may be difficult Foundational to her program are reading and writing Among other things she lays out the steps for students even as early as fourth grade to write five paragraph essays and their own student authored books and to research and write reports that include bibliographies When she differentiated curriculum to support all students needs she found their learning accelerated All teachers will appreciate her ideas about how to teach the basics of math as well as advanced math concepts And her ideas for teaching the arts are inspirational as she describes in detail how her fourth graders performed Shakespeare s Hamlet Macbeth King Lear Julius Caesar and A Midsummer Night s Dream She also shows how to integrate social studies with literature and writing Her experiences taught her that young students are much more capable than many people realize The Conscious Teacher is an indispensable guide for all new teachers Many of the ideas Ms Nichols Poulos provides will also be an eye opener for parents and experienced teachers as well The Conscious Teacher is simply a must have for anyone truly interested in giving young children a positive and solid foundation for their later schooling

Leadership for Learning ,2008-01-01 The impact of globalization is being felt in numerous spheres of educational policy and practice in rapid growth of information and communication technologies in economic transformation and international market competition all of which conspire to create new demands and place new pressures on school leadership Drawing on examples from 12 countries in different parts of the world The Editors have brought together 28 renowned scholars in Europe Australia North America and Asia Pacific countries to contribute to this book The first six chapters address key themes and provide the framework for the 12 country reports which follow With the aim of increasing international understanding and teasing out issues of transfer and application across cultural and linguistic boundaries we have chosen national reports which cover a range of countries representing a diversity of culture and contextual backgrounds We believe these chapters and the book as a whole can provide important theoretical policy and practical implications that will inform the debate about the future of education and of schooling While each of these country narratives underscore the importance of context at the same time there are insights and values held in common
