God And Design The Teleological Argument And Modern Science:

God and Design Neil A. Manson, 2003-09-02 Recent discoveries in physics cosmology and biochemistry have captured the public imagination and made the Design Argument the theory that God created the world according to a specific plan the object of renewed scientific and philosophical interest This accessible but serious introduction to the design problem brings together new perspectives from prominent scientists and philosophers including Paul Davies Richard Swinburne Sir Martin Rees Michael Behe Elliot Sober and Peter van Inwagen It probes the relationship between modern science and religious belief considering their points of conflict and their many points of similarity Is the real God of creationism the master clockmaker who sets the world s mechanism on a perfectly enduring course or a miraculous presence who continually intervenes in and alters the world we know Are science and faith or evolution and creation really in conflict at all Expanding the parameters of a lively and urgent debate *God and Design* considers how perennial questions of origin continue to fascinate and disturb us *God and Design*, 2003 [Religion, Supernaturalism, the Paranormal and Pseudoscience](#)

V. R. Kojonen, 2021-08-10 This book challenges the widespread assumption of the incompatibility of evolution and the biological design argument Kojonen analyzes the traditional arguments for incompatibility and argues for salvaging the idea of design in a way that is fully compatible with evolutionary biology Relating current views to their intellectual history Kojonen steers a course that avoids common pitfalls such as the problems of the God of the gaps the problem of natural evil and the traditional Humean and Darwinian critiques The resulting deconstruction of the opposition between evolution and design has the potential to transform this important debate

The Best Argument against

God G. Oppy, 2013-07-23 compares two theories Naturalism and Theism on a wide range of relevant data It concludes that Naturalism should be preferred to Theism on that data The central idea behind the argument is that while Naturalism is simpler than Theism there is no relevant data that Naturalism fails to explain at least as well as Theism does
