God Is Not Great How Religion Poisons Everything:

God Is Not Great Christopher Hitchens, 2008-11-19 Christopher Hitchens described in the London Observer as one of the most prolific as well as brilliant journalists of our time takes on his biggest subject yet the increasingly dangerous role of religion in the world In the tradition of Bertrand Russell's *Why I Am Not a Christian* and Sam Harris's bestseller *The End Of Faith* Christopher Hitchens makes the ultimate case against religion With a close and erudite reading of the major religious texts he documents the ways in which religion is a man made wish a cause of dangerous sexual repression and a distortion of our origins in the cosmos With eloquent clarity Hitchens frames the argument for a more secular life based on science and reason in which hell is replaced by the Hubble Telescope's awesome view of the universe and Moses and the burning bush give way to the beauty and symmetry of the double helix

Does Religion Poison Everything?** Pillar Of Truth Press,2024-03-05 In *God is Not Great Does Religion Poison Everything* I will tackle Christopher Hitchens provocative question examining the 1 reason why atheists like Hitchens harbor resentment towards religion Through a thoughtful exploration of personal experiences skepticism and medical miracles the book challenges the assumptions that underpin atheism From dissecting the Old and New Testaments to addressing ethical dilemmas this book gets into the heart of the debate between believers and non believers I will take you on a personal journey through my own faith as I unpack questions about God s existence miracles and the purpose of suffering By inviting you into my personal story and doubling down with intellectual discussions my book invites you to reflect on your own beliefs and consider the intricate balance between skepticism and faith I not only respond to Hitchens claims but also introduce four thought provoking questions specific to Christianity challenging the atheist perspective Through a blend of theological exploration and scientific reasoning I argue that atheism or antitheism itself may contradict the principles of science and reason I invite you to come down this path with me that goes beyond the boundaries of belief as I provide a fresh perspective on the age old debate between atheism and religion Explore the complexities of human experiences the role of miracles and the underlying principles that shape our understanding of God as well as that of morality and the universe at large *I Want to Believe* Mel Lawrenz,2008-01-02 In *I Want to Believe* Mel Lawrenz ignites a latent desire in all of us the desire to believe in something bigger than ourselves Lawrenz takes an honest dive into topics that are true areas of tension doubt rebirth faith and action and the essence of Christian faith A fresh and engaging style draws readers into an unexpected conversation in which they

receive concrete concise descriptions of Christian faith in principle and in real life and are shown contrasts with other faith alternatives The chapters are skillful interweavings of narrative illustration and biblical reflection Throughout the book readers are assured that doubts are part of believing and that hardships in life do not contradict faith For believers and seekers alike I Want to Believe will fan the flame of faith and affirm the quest for believing **God's Not Dead** Rice Brooks,2013-03-11 The evidence behind the hit movie God s NotDead is apologetics for the twenty first century presented in clear and easy to follow terms Learn to defend your faith in a world that s determined to tear it down The goal of God s Not Dead is straightforward to help readers develop a faith that is real and credible and strong enough to help others find faith in God Author Rice Brooks outlines a roadmap that guides seekers to acknowledge the most basic truths of Christianity There is overwhelming and exciting evidence for God s existence The God who exists is indeed the God of the Bible God has revealed his nature through his Son Jesus Christ As shown during the movie this is the original book on which the main character bases much of his debate points with his atheistic professor It contains persuasive arguments crafted with tools borrowed from logic science philosophy and scripture that will solidify your faith and provide starting points for discussions with skeptics With clear easy to follow explanations of key concepts and controversies God s NotDead is modern apologetics presented in layman s terms You will be empowered not only to talk about your own faith with confidence but to lead others to a relationship with Jesus [On Foot to Canterbury](#) Ken Haigh,2021-10-05 Setting off on foot from Winchester Ken Haigh hikes across southern England retracing one of the traditional routes that medieval pilgrims followed to the shrine of Saint Thomas Becket at Canterbury Cathedral Walking in honour of his father a staunch Anglican who passed away before they could begin their trip together Haigh wonders Is there a place in the modern secular world for pilgrimage On his journey he sorts through his own spiritual aimlessness while crossing paths with writers like Anthony Trollope John Keats Jane Austen Jonathan Swift Charles Dickens and of course Geoffrey Chaucer Part travelogue part memoir and part literary history On Foot to Canterbury is engaging and delightful My father didn t need this walk not the way I do For him it would have been a fun way to spend some time with his son He had I begin to realize a talent for living in the moment Perhaps a pilgrimage would help me find happiness Perhaps I could walk my way into a better frame of mind and somehow along the road to Canterbury I would find a new purpose for my life It was worth a shot Audio edition from PRH available from Audible Kobo Google and Apple Books **The Rage Against the Light** Peter Harris,2019-04-29 Christopher Hitchens was the most eloquent of the New Atheists With great rhetorical polish and an encyclopedic mind for historical facts and literary quotations he presents the case of anti theism very effectively Though now deceased Hitchens arguments continue to reverberate through his best selling books and online presence God asserts Hitchens would be if he existed the greatest of dictators Religion according to Hitchens is morally bankrupt and madly irrational The world is better off without them But is this true It is the purpose of this book to identify Hitchens worldview in order to subject it to a critique that will powerfully

expose its many flaws Rather than a dictator God will be shown to be a God of love Christianity too will be revealed as a faith that ought to resist tyranny provides the best foundation for intrinsic human value and is a rational belief system In so doing this book appeals to all who have been influenced or convinced by Hitchens arguments to reconsider their position and refuse to rage against the light

Systematic Atheology John R. Shook,2017-12-01 Atheology is the intellectual effort to understand atheism defend the reasonableness of unbelief and support nonbelievers in their encounters with religion This book presents a historical overview of the development of atheology from ancient thought to the present day It offers in depth examinations of four distinctive schools of atheological thought rationalist atheology scientific atheology moral atheology and civic atheology John R Shook shows how a familiarity with atheology s complex histories forms and strategies illuminates the contentious features of today s atheist and secularist movements which are just as capable of contesting each other as opposing religion The result is a book that provides a disciplined and philosophically rigorous examination of atheism s intellectual strategies for reasoning with theology *Systematic Atheology* is an important contribution to the philosophy of religion religious studies secular studies and the sociology and psychology of nonreligion

God Is Great, God Is Good William Lane Craig,Chad Meister,2010-08-24 In this magisterial collection the contemporary complaints against belief in God are addressed with intellectual passion and rigor by some of the most astute theological and philosophical minds of the day Including an interview by Gary Habermas with noted convert to theism Antony Flew and a direct critical response to Richard Dawkins s *God Delusion* by Alvin Plantinga *God Is Great God Is Good* offers convincing and compelling reassurance that though the world has changed God has not

A Constructive Critique of Religion Mia Lövhelm,Mikael Stenmark,2020-02-06 Why do some strategies for critique of religion seem to be more beneficial for constructive engagement whereas others increase intolerance polarization and conflict Through an analysis of the reasons underpinning a critique of religion in institutional contexts of secular democratic societies *A Constructive Critique of Religion* explores how constructive interaction and critique can be developed across diverse interests It shows how social and cultural conditions shaping these institutions enable and structure a critical and constructive engagement across diverging worldviews A key argument running through the book is that to develop constructive forms of critique a more thorough and systematic investigation of resources for criticism located within religious worldviews themselves is needed Chapters also address how critique of Islam and Christianity in particular is expressed in areas such as academia the law politics media education and parenting with a focus on Northern Europe and North America The interdisciplinary approach which combines theoretical perspectives with empirical case studies contributes to advancing studies of the complex and contentious character of religion in contemporary society

Mueller,2014-04-08 Groundbreaking Washington Examiner Economics is primed for and in desperate need of a revolution respected economic forecaster John D Mueller shows in this eye opening book To make the leap forward will require looking backward for as Redeeming Economics reveals the most important element of economic theory has been ignored for more than two centuries Since the great Adam Smith tore down this pillar of economic thought economic theory has been unable to account for a fundamental aspect of human experience the relationships that define us the loves and hates that motivate and distinguish us as persons In trying to reduce human behavior to exchanges modern economists have forgotten how these essential motivations are expressed as gifts or their opposite crimes Mueller makes economics whole again masterfully reapplying the economic thought of Aristotle Augustine and Aquinas **The Greatest Religion Never Tried** ,
