Volume 1 Jeroen Darquennes, Joseph C. Salmons, Wim Vandebussche, 2019-08-19 *Language Contact An International Handbook* offers a comprehensive overview of current topics in research on language contact. Broadly conceived, it stands out for its international approach to language contact, complementing the theoretical state of the art with examples from traditionally eclipsed areas and languages. Next to a thorough introductory overview of the ground-breaking methodological and theoretical approaches that shaped the discipline, ample attention goes to the new and innovative insights on language contact in the 21st century. Combining concise introductory contributions with in-depth treatment of the most relevant case studies in the field, the handbook speaks to both junior and established scholars. *The Routledge Handbook of Translation History* Christopher Rundle, 2021-09-30 *The Routledge Handbook of Translation History* presents the first comprehensive state of the art overview of this multi-faceted disciplinary area and serves both as an introduction to carrying out research into translation and interpreting history and as a key point of reference for some of its main theoretical and methodological issues, interdisciplinary approaches and research themes. The Handbook brings together 30 eminent international scholars from a wide range of disciplinary backgrounds, offering examples of the most innovative research while representing a wide range of approaches, themes and cultural contexts. The Handbook is divided into four sections: the first looks at some key methodological and theoretical approaches; the second examines some of the key research areas that have developed an interdisciplinary dialogue with translation history; the third looks at translation history from the perspective of specific cultural and religious perspectives; and the fourth offers a selection of case studies on some of the key topics to have emerged in translation and interpreting history over the past 20 years. This Handbook is an indispensable resource for students and researchers of translation and interpreting history, translation theory and related areas. *The Routledge Handbook of Interpreting* Holly Mikkelsen, Renée Jourdenais, 2015-02-20 *The Routledge Handbook of Interpreting* provides a comprehensive survey of the field of interpreting for a global readership. The handbook includes an introduction and four sections with thirty-one chapters by leading international contributors. The four sections cover: The history and evolution of the field; The core areas of interpreting studies from conference interpreting to interpreting in conflict zones and voiceover; Current issues and debates from ethics and the role of the interpreter to the impact of globalization; A look to the future. Suggestions for further reading are provided with every chapter. *The Routledge Handbook of Interpreting* is an essential reference for researchers and advanced students of interpreting. *Literary Translation in Modern Iran* Esmaeil Haddadian-Moghaddam, 2014-12-15 *Literary Translation in Modern Iran* A sociological study is the first comprehensive study of literary translation in modern Iran, covering the period from the late 19th century up to the present day. By drawing on Pierre Bourdieu's sociology of culture, this work investigates the people behind the selection, translation and production of novels from English into Persian. The choice of novels such as Morier's *The Adventures of Hajji Baba of Ispahan*, Austen's *Pride and Prejudice* and Vargas Llosa's *The War of the End of the World* provides insights into who decides upon titles for

translation motivations of translators and publishers and the context in which such decisions are made The author suggests that literary translation in Iran is not a straightforward activity As part of the field of cultural production literary translation has remained a lively game not only to examine and observe but also often a challenging one to play By adopting hide and seek strategies and with attention to the dynamic of the field of publishing Iranian translators and publishers have continued to play the game against all odds The book is not only a contribution to the growing scholarship informed by sociological approaches to translation but an essential reading for scholars and students of Translation Studies Iranian Studies and Middle Eastern Studies *The Situatedness of Translation Studies*, 2021-03-15 In *The Situatedness of Translation Studies* Luc van Doorslaer and Ton Naaijken critically reassess some outdated views about Translation Studies and demonstrate that translation theory is far more diverse than its usual representation as a Western scholarly tradition arising from the 1970s onwards They present ten chapters about lesser known conceptualizations of translation and translation theory in various cultural contexts such as Chinese Estonian Greek Russian and Ukrainian This book shows that so called modern arguments about translation practice encompassing much more than a linguistic phenomenon can in fact be dated back and connected to several precursors such as semiotics or transfer theory In doing so it theorizes and localizes discussions about perceptions of translation and Translation Studies as a discipline Contributors Yves Gambier Iryna Odrekhivska Elin S tiste Silvi Salupere Shaul Levin Feng Cui Natalia Kamovnikova Anastasia Shakhova George Floros Simos Grammenidis Anne Lange Luc van Doorslaer Ton Naaijken **Introducing Translation Studies** Jeremy Munday, 2016-02-05 *Introducing Translation Studies* remains the definitive guide to the theories and concepts that make up the field of translation studies Providing an accessible and up to date overview it has long been the essential textbook on courses worldwide This fourth edition has been fully revised and continues to provide a balanced and detailed guide to the theoretical landscape Each theory is applied to a wide range of languages including Bengali Chinese English French German Italian Punjabi Portuguese and Spanish A broad spectrum of texts is analysed including the Bible Buddhist sutras Beowulf the fiction of Garc a M rquez and Proust European Union and UNESCO documents a range of contemporary films a travel brochure a children s cookery book and the translations of Harry Potter Each chapter comprises an introduction outlining the translation theory or theories illustrative texts with translations case studies a chapter summary and discussion points and exercises NEW FEATURES IN THIS FOURTH EDITION INCLUDE new material to keep up with developments in research and practice including the sociology of translation multilingual cities translation in the digital age and specialized audiovisual and machine translation revised discussion points and updated figures and tables new in chapter activities with links to online materials and articles to encourage independent research an extensive updated companion website with video introductions and journal articles to accompany each chapter online exercises an interactive timeline weblinks and powerpoint slides for teacher support This is a practical user friendly textbook ideal for students and researchers on courses in Translation and Translation Studies
