Aan het begin van deze eeuw raakte de cia in een zware crisis Na de Koude Oorlog was de inlichtingendienst zijn oorspronkelijke doel kwijtgeraakt buitenlandse posten werden gesloten er werd gewerkt met verouderde technologie en cruciale informatie werd over het hoofd gezien Later na de aanslagen van 9 11 verschoof de focus naar paramilitaire activiteiten met geheime gevangenissen en dodelijke drone aanvallen waarmee de kernmissie het verzamelen van informatie nog verder naar de achtergrond verdween Dit had ernstige gevolgen talloze buitenlandse agenten vonden de dood personeelsdossiers werden gestolen door Chinese spionnen en computernetwerken werden door de Russische inlichtingendienst en Amerikaanse hackers gefiltreerd In De missie onderzoekt Tim Weiner de strijd van de cia om na deze jaren van mislukkingen zijn verloren spionagecapaciteiten te herstellen Dit is de onthullende geschiedenis van de cia in de eenentwintigste eeuw van 9 11 en de oorlogen in Afghanistan en Irak tot de huidige conflicten met Rusland en China *The Middle East, Abstracts and Index* ,2004 *The New York Times Index* ,2002 **Black Site** Philip Mudd,2019-07-30 A bold account of one of the most controversial and haunting initiatives in American history Black Site tells the full story of the post 9 11 counterterrorism world at the CIA When the towers fell on September 11 2001 nowhere were the reverberations more powerfully felt than at CIA headquarters in Langley Virginia Almost overnight the intelligence organization evolved into a warfighting intelligence service constructing what was known internally as the Program a web of top secret detention facilities intended to help prevent future attacks on American soil and around the world With Black Site former deputy

director of the CIA Counterterrorist Center Philip Mudd presents a full never before told story of this now controversial program directly addressing how far America went to pursue al Qaeda and prevent another catastrophe Heated debates about torture were later ignited in 2014 after the US Senate published a report of the Program detailing the CIA's use of enhanced interrogation techniques to draw information from detainees The report Mudd posits did not fully address key questions How did the officials actually come to their decisions What happened at the detention facilities known as Black Sites on a day to day basis What did they look like How were prisoners transported there And how did the officers feel about what they were doing Black Site seeks answers to these questions and more first by examining pre 9 11 Langley when the CIA was tasked with collecting disseminating and analyzing information related to overseas events Mudd argues that September 12 2001 marked an operational revolution as officials suddenly felt the weight of protecting a nation from a second wave of attacks inside the United States Re-creating the incredibly tense atmosphere of the time Mudd reveals that many officials felt an unshakable personal responsibility to thwart another attack Based on interviews from dozens of officials many of whom have never spoken out before Black Site illuminates how the Agency quickly stepped into the process of organizing a full blown interrogation program Mudd offers a deeper understanding of how the enhanced interrogation techniques were developed and how intelligence professionals prepared to talk to the world's most hardened terrorists With careful detail he takes us through the process of each legally approved technique including waterboarding As compelling as it is revelatory Black Site shows us the tragedy and triumph of the CIA during its most difficult days
