Inequality and Poverty in Malaysia Sudhir Anand,1982-01-01 *Inequality and Poverty in Malaysia* Sudhir Anand,1983
A sophisticated account of income equalities and poverty in Malaysia which will be of particular interest to policy makers A range of issues is covered from data problems to conceptual questions arising with respect to measurement

Urbanization, Educational Expansion, and Expenditures Inequality in Indonesia in 1996, 1999 and 2002 Takahiro Akita and Sachiko Miyata,2007 Paper on Thailand's Income Distribution and Poverty Profile and Their Current Situations

Suganya Hutaserani,Somchai Jitsuchon,1988 Poverty and Inequality among Chinese Minorities Ajit S. Bhalla,Shufang Qiu,2024-11-01 The number of poor people in China is huge despite recent economic advances The minorities in China constitute less than ten per cent of the entire population yet they represent forty to fifty per cent of the absolute poor This compelling book investigates the problem of poverty and inequality in and among Chinese ethnic minorities focusing in particular on two important questions Have the minorities shared the fruits of spectacular economic growth in China during the past two decades Is their backwardness due to ethnic and cultural factors or to extremely low incomes The authors examine the different factors explaining poverty the relationship between poverty and ethnicity poverty indicators that permit a comparison between minorities and non minorities or the Han majority economic and demographic characteristics of minorities and their educational occupational and gender profiles They consider whether special measures in favour of minorities introduced by the Chinese government have contributed to an improvement in their standard of living Poverty and Inequality among Chinese Minorities gives original research findings and new thinking on a highly topical issue in Chinese development economics and fills a gap in the existing economic literature **Locational Analysis of Firms' Activities from a Strategic Perspective**

Toshiharu Ishikawa,2018-08-24 This book presents a variety of research papers on factories locations city systems and regional development Consisting of three parts it provides insights into the locational aspects of firms activities from a strategic perspective Part 1 discusses decision making in the context of location specifying the motivation for firms to move their factories provided by the corporate tax system It also presents a case study from East Asia to clarify a mechanism by which firms move factories Part 2 addresses city systems offering theoretical clues to understanding why city systems are important to regional economies It also clarifies from the empirical analysis the relations between city systems and the performances of regional economies Part 3 investigates the topic of industrial parks demonstrating how they form a basis for establishing industrial clusters in regional economies In addition it examines the economic phases such as economic disparity generated in the process of development **Regional Inequality and Development** Takahiro Akita,Mitsuhiko Kataoka,2022-07-14 This book addresses three main issues in regional income inequality and development meaning of regional inequality measurement of regional inequality and the relationship between national economic development and regional income inequality It provides analytical methods useful in exploring the

determinants of regional inequality in income and productivity Some software commands in Stata statistical software package available for the measurement and analysis of income inequality are also introduced Some researchers have argued that spatial concentration of population in and around major cities and the concurrent increase in regional inequality do not hinder national economic development and may stimulate it Nevertheless many national governments seek to promote balanced regional economic development and reduce regional income inequality because unbalanced development and higher levels of regional inequality may cause political or ethnic conflicts between different regions of the country As the applications of the analytical methods introduced in the first part of the book the second part presents four independent empirical studies on regional inequality and development in Indonesia They offer very interesting case studies for the formulation of policies and programs to reduce regional inequalities because as the world's largest archipelagic country with more than 13 thousand islands and 300 ethnic groups Indonesia is spatially diverse in terms of its ecology natural resource endowments economy ethnicity and culture This book can be used as a textbook for undergraduate and graduate students who are interested in national economic development and regional income inequality It is also beneficial for practitioners and policy makers who are in charge of the formulation implementation and evaluation of development policies and programs

Economic Policies in the Pacific Area Developing Countries Bela Balassa, 1991-06-18 Aims to improve our understanding of the factors determining the economic performance of the Pacific area developing countries The book deals with both the newly industrializing countries and the newly exporting countries *Poverty Amongst Minority Melanesians in Fiji*, 2004

Income Inequality and Poverty in Malaysia Shireen Mardziah Hashim, 1998 This thorough analysis of Malaysia's economic expansion evaluates the success of the government's New Economic Policy NEP which was designed to promote national unity by reducing poverty as well as by loosening the link between ethnicity and economic function The first comprehensive analysis of income distribution trends after the inauguration of the NEP the study also considers interethnic urban rural and regional variations over time Although there have been significant reductions in poverty and income inequality Hashim uses previously unpublished data to show that both are still rampant Population and Poverty in the Developing World Massimo Livi-Bacci, Gustavo De Santis, 1999-04-01 The increasing gap between developed and developing world will be one of the most important themes of the 21st century The contributions contained in this volume take a multidisciplinary approach to the problem offering a comprehensive review of the theoretical issues and empirical findings that relate to the complex and multidirectional link between poverty and demographic behaviours and outcomes in the contemporary developing world The starting point of the volume is an exact definition of poverty The contributors go on to analyse in the detail its causes and effects both at the micro and macro level concentrating on those factors and consequences which relate more directly to the demographic sphere Population growth household structure and labour fertility AIDS urbanization migration and mortality are amongst the areas covered with the major themes discussed and elaborated in an introductory overview chapter An

Income Inequality in Singapore Pundarik Mukhopadhaya, 2014-03-26 The World Bank 1993 conferred on Singapore the status of tiger economy because of its two miraculous characteristics high growth and reduced income inequality Expansion of educational provision is one of the major policies the Government of Singapore followed since 1975 particularly to enrich the human capital endowment of the country which has been crucial to the success of Singapore This book made a coherent study of these extremely important issues to examine the trend and pattern of income inequality in Singapore The book delves further into the trend and pattern of income inequality in Singapore and their implications for the future It attempts to analyse the links between social welfare and inequality in the light of rapid economic growth phase and adduced important policy implications The concepts and methodologies used in this book as well as the novelty of analyses and policy implications make this a coherent and in depth study of extremely important issues with most up to date observations In the last three decades no such book on Singapore has been written and this book fills the gap in existing literature It is a must read for anyone who is interested to learn more about the tiger economy of Singapore Government Reports Announcements & Index , 1986 Bibliographie der Wirtschaftswissenschaften , 1984 Reflections on the Malaysian Economy Post-GE 14 : Issues and Challenges (UUM Press) Irwan Shah Zainal Abidin, 2021-10-03 The victory of the Pakatan Harapan PH or the Alliance of Hope on May 9 2018 in the Malaysian 14th General Election GE14 was not just stunning but historic Moreover the second comeback of Tun Dr Mahathir Mohamad as the seventh Prime Minister of Malaysia was indeed impressive The results of the GE14 were clearly against the tide as many political pundits and analysts had predicted a win for the Barisan Nasional BN coalition with differences only in matters of margins Similar to Malaysia s 13th General Election GE13 which was held on May 5 2013 the main issue in the GE14 was also about the economy The rise in cost of living was perhaps the mother of all issues which caused the downfall of the BN government for the first time since independence Other crucial economic issues centered on alleged corruption practices and manifested through the 1Malaysia Development Berhad 1MDB saga As a new federal power for 22 months the PH government had a daunting task not just to address economic issues mentioned above but also the other alleged economic problems which they had highlighted in their election manifesto On top of that the PH government had the responsibility to maintain if not to improve further what the BN government had done to the Malaysian economy in the past of which World Bank economists described as a success story a very strong economy and growing towards a high income Post GE14 what is the state of the Malaysian economy and its direction What are lessons that can be learned from the PH economic management And with the Perikatan Nasional PN government succeeding the federal power in March 2020 in the midst of the Covid 19 pandemic what are the pressing issues and what needs to be done moving forward especially in the context of the economic challenges arising from the pandemic and post Covid 19 era These are some critical questions which this book is trying to address The book essentially argues for the need

to give greater focus to economic issues above anything else by envisioning a new national vision and engineering a new wave of economic structural reforms primarily based on insights from the vast Malaysian economic history lessons

Handbook of Income Distribution Anthony B. Atkinson, Francois Bourguignon, 2014-12-30 What new theories evidence explanations and policies have shaped our studies of income distribution in the 21st century Editors Tony Atkinson and Francois Bourguignon assemble the expertise of leading authorities in this survey of substantive issues In two volumes they address subjects that were not covered in Volume 1 2000 such as education health and experimental economics and subjects that were covered but where there have been substantial new developments such as the historical study of income inequality and globalization Some chapters discuss future growth areas such as inheritance the links between inequality and macro economics and finance and the distributional implications of climate change They also update empirical advances and major changes in the policy environment The volumes define and organize key areas of income distribution studies Contributors focus on identifying newly developing questions and opportunities for future research The authoritative articles emphasize the ways that income mobility and inequality studies have recently gained greater political significance *Bibliographie der Staats-und Wirtschaftswissenschaften* ,1984 **The Poor in Asia** Swapna Mukhopadhyay, 1985 Comparison of anti poverty productivity raising strategies and programmes in South Asia and South East Asia refers particularly to rural employment and income generating activities includes modernization of agriculture land reform basic needs programmes in Bangladesh India Pakistan Sri Lanka Korea R Malaysia the Philippines and Thailand contains project evaluation financial aspects etc Statistical tables references
