George Eliot and Music Beryl Gray, 1989-06-18 A treatise which explores the extent to which music played a role in the literary works of George Eliot. The Origin of Hardy's Tragic Vision Rıza Öztürk, 2013-01-03 Dr Rıza Öztürk's new book *The Origin of Hardy's Tragic Vision* is a lucid explanation of the most important aspect of novelist Thomas Hardy's worldview: the destruction of self. Dr Öztürk gets to the core of Hardy's tragic vision evident in the novelist's interpretation of the dramatic interplay between character and circumstance. To what degree either element of character or circumstance weighs in the tragic equation is the subject of discourse in Öztürk's book: a significant acquisition for students and scholars of Hardy, Victorian literature and culture or the history of the English novel. This study of Hardy tackles the novelist's formulation of tragedy as an individual's natural aim or desire and attempts to answer the important question concerning who or what is responsible for such appetite. *The Origin of Hardy's Tragic Vision* can serve as a handbook in the study of tragedy from the ancient Greek notions to manifestations in late nineteenth century novelists with reference to modern novelists and dramatists such as D. H. Lawrence and Henrik Ibsen. Öztürk's analysis from the impulse of character in *The Mayor of Casterbridge* through the envelope of circumstance in *Tess of the D'Urbervilles* culminates comprehensively in his discussion of the depletion of life in *Jude the Obscure*. As a novelist familiar with the ideas of Schopenhauer and Darwin, Hardy's tragic vision encompasses a brutally stark statement about the reality of life itself and this assessment is captured brilliantly in Rıza Öztürk's important book. Regarding tragedy from the technical elements to the thematic to its special attention in terms of feminism and illustrations of the absurd in *Jude the Obscure*, there is no question that *The Origin of Hardy's Tragic Vision* fills the need for newer interpretations of a vital figure in English literature who straddles both the Victorian and modern eras. Gregory F. Tague, PhD, Professor of English, St. Francis College, New York, author of *Character and Consciousness* (2005) and *Ethos and Behavior* (2008), editor of the *ASEBL Journal*

Violence Through Environmental Discrimination Günther Baechler, 2013-03-09 Since all out interstate wars for the time being seem to belong

to the past conflict studies focus more and more on domestic conflicts This is a broad field not only because the arbitrary line between war and sub war violence disappears and the analyst is confronted with phenomena reaching from criminal violence and clashes between communities to violent conflicts of long duration and civil wars with massacres and genocides as their characteristics It is also because there are so many different types of conflicts to be analyzed so many different types of behavior to be studied whereas there is often little information available on what is really going on Against the background of internal conflicts which tend to be as protracted as diffuse in terms of time intensity actors and their goals this study aims to follow a specific pathway through the current thicket of violent circumstances It focuses on causation patterns by exploring the causal role of the environmental factor in the genesis of violent conflicts occurring today and probably even more so tomorrow This approach which for once does not focus on a specific level of the conflict system on one area in the conflict geography or on a specific category of actors analyzes causation dynamics
