Times Literary Supplement

The Advisory Years to 1965 Robert Frank Futrell, Martin Blumenson, 1981 This publication is the first of a series titled *The United States Air Force in Southeast Asia* It tells the story

of the Air Force's involvement in the region from the end of the second World War until the major infusion of American troops into Vietnam in 1965. During these years and most noticeably after 1961, the Air Force's principal role in Southeast Asia was to advise the Vietnamese Air Force in its struggle against insurgents seeking the collapse of the Saigon Government. This story includes some issues of universal applicability to the Air Force: the role of air power in an insurgency, the most effective way to advise a foreign ally and how to coordinate with other American agencies, both military and civilian, which are doing the same thing. It also deals with issues unique to the Vietnamese conflict: how to coordinate a centralized technological modern air force with a feudal decentralized indigenous one without overwhelming it and how best to adapt fighter reconnaissance, airlift and liaison planes to a jungle environment. Additional volumes in this series will tell the story of the Air Force in South Vietnam, in Laos and over North Vietnam until the cessation of the Air Force's direct role in 1973. Author

The SAGE Handbook of Propaganda Paul Baines, Nicholas O'Shaughnessy, Nancy Snow, 2019-11-25. The SAGE Handbook of Propaganda unpacks the ever present and exciting topic of propaganda to explain how it invades the human psyche in what ways it does so and in what contexts. As a beguiling tool of political persuasion in times of war, peace and uncertainty, propaganda incites people to take often violent action, consciously or unconsciously. This pervasive influence is particularly prevalent in world politics and international relations today. In this interdisciplinary Handbook, the editors have gathered together a group of world class scholars from Europe, America, Asia and the Middle East to discuss leadership propaganda, war propaganda, propaganda for peace, marketing propaganda as a psychological tool, terror enhanced propaganda and the contemporary topics of internet mediated propaganda. Unlike previous publications on the subject, this book brings to the forefront current manifestations and processes of propaganda such as Islamist and Far Right propaganda from interdisciplinary perspectives. In its four parts, the Handbook offers researchers and academics of propaganda studies, peace and conflict studies, media and communication studies, political science and governance, marketing as well as intelligence and law enforcement communities a comprehensive overview of the tools and context of the development and evolution of propaganda from the twentieth century to the present. Part One: Concepts, Precepts and Techniques in Propaganda Research. Part Two: Methodological Approaches in Propaganda Research. Part Three: Tools and Techniques in Counter Propaganda Research. Part Four: Propaganda in Context. **Big Wars and Small Wars** Hew Strachan, 2006-09-27. This is a fascinating new insight into the British army and its evolution through both large and small scale conflicts. To prepare for future wars, armies derive lessons from past wars. However, some armies are defeated because they learnt the wrong lessons, fighting new conflicts in ways appropriate to the last. For the British Army in the twentieth century, the challenge has been particularly great. It has never had the luxury of emerging from one major European war with the time to prepare itself for the next. The leading military historians show how ongoing commitments to a range of small wars have always been part of the Army's experience. After 1902 and after 1918, they included colonial campaigns but they also developed into what we would now call

counter insurgency operations and these became the norm between 1945 and 1969 During the height of the Cold War in 1982 the Army was deployed to the Falklands Since 1990 the dominant tasks of the Army have been peace support operations This is an excellent resource for all students and scholars of military history politics and international relations and British history
