Kidz Crossing Mobile AI:

Cultural Encounters as Intervention Practices Lene Bull Christiansen, Lise Paulsen Galal, Kirsten

Hvenegaard-Lassen, 2020-05-06 Setting up cultural encounters is a widespread intervention strategy employed to diffuse conflicts and manage difficulties related to diversity. These organised cultural encounters bring together people of different backgrounds in order to promote peaceful coexistence and inclusion. These transformative aims relate to the participants but are often also expected to spill over into the society community or context addressed by the encounter. As a category Organised Cultural Encounters draws together a variety of activities and events such as multicultural festivals, dialogue initiatives, diversity training and inclusion projects, activities that are generally not considered to be of the same kind. Most of the existing literature on these types of encounters is instrumental and has an overall emphasis on evaluations in terms of outcome or success rate. This book goes beyond evaluations and the contributors pose and debate theoretical and methodological questions and analyse the practices and performativities of particular encounters. Taken together it makes an important contribution to the theorisation and analysis of intercultural relations and negotiations. This book was originally published as a special issue of the Journal of Intercultural Studies. **American Book Publishing Record**, 1996-05
