Mandator: Volume 8 Graham Edge,2016-10-24 When the AEC Mandator V8 was introduced in 1968 it carried with it high hopes for the future of AEC and the Leyland Group Nothing remotely like it had been produced before Word soon got around about its excellent performance However just as word had spread about the initial performance of the model so news soon travelled about the problems arising in service Eventually the lorry was withdrawn from sale Since the early 1970s when most of the 300 or so Mandator V8s sold in the UK had been withdrawn there has always been a strong undercurrent of interest shown in it AEC Mandator V8 has been out of print for many years and has been brought back in 2016 to make this fascinating story available again to AEC enthusiasts and those with an interest in general transport history Graham Edge is a trucking journalist and author Series Commercial Vehicles Archive Series Subject Commercial Vehicles Transportation

Fifty Shades of Tarmac Andy MacLean,2015-08-12 It was 1972 It was summer and the living was easy Arthur Jackson has a good job no ties and no responsibilities but it is not enough he wants adventure and he wants to see the world Based on the author s real life experiences and illustrated with photographs from the time *Fifty Shades of Tarmac* tells the fictional story of how a naive young British truck driver obtains his first job driving a Mack on the continent of Europe His first trip with all its pitfalls and novel experiences takes him from Rotterdam to Bremerhaven via Moutiers and Salzburg and then back to Rotterdam It is told with humour introducing a number of colourful characters and providing a personal and unusual insight

into the life of a truck driver in the 70s at a time when Europe still had frontier posts and custom restrictions It will be of interest to truck drivers Mack fans and other transport enthusiasts and those who simply want to learn more about the social history of Europe in the 1970s Farm Machinery Brian Bell,2010-02-12

Farm Machinery is the standard book on the current theory and practice of farm mechanisation for students and farmers First published in 1979 this new sixth edition incorporates much new text together with 280 new colour photographs illustrating the steady flow of developments in farm mechanisation that have taken place over the past decade Recent advances in computer technology and satellite field mapping are included and new content enriches the earlier material dealing with the working principles and operation of the vast array of the somewhat less sophisticated farm tractors and machines still in use on British farms There are chapters on tractors cultivation and drilling equipment crop care and harvest machinery Further chapters deal with farmyard and estate maintenance equipment mechanical handlers dairy equipment irrigation farm power and the farm workshop References are made to the UK Health Safety at Work Act and other safety regulations These summarise their main requirements but they should only be taken as a guide Brian Bell has had a long involvement with farm machinery that started with an apprenticeship in a tractor dealership After a teaching career on farm machinery at Otley College in Suffolk he retired as Vice Principal in 1993 when he was awarded the MBE for services to agriculture Brian Bell has written a number of books and made seventeen DVDs on modern and vintage tractors and machinery **Catalogue of Books Arranged by Subjects**

Library Board of Western Australia,1966 *The Long Haul Pioneers* Ashley Coghill,2020-02-01 It all started in 1964 when two friends gave up promising medical careers to embark upon a journey which few hardened truckers would have considered In so doing they were solely responsible for creating the first long haul overland route across Europe and deep into the Middle East to Kabul The men had started the Middle East Run was to become a phenomenon in the road haulage industry an image which it still holds today This book is about the company founded by one of those men from its fledgling days as Asian Transport to the thriving Astran Cargo Services Ltd that it is today In this book Ashley Coghill documents the complete history of the company to date with the focus predominantly on the early days when the men were fighting for something and revelling in the adventure These early long haul drivers would think nothing of a 10 000 mile round trip to Iran or the Arabian Gulf and being stranded at 6 000 feet on a mountain pass with temperatures below 40 was just all in a day s work Ashley Coghill has an immense enthusiasm for his subject and has given his research total dedication He has also tracked down past and present employees to gather first hand information which he has illustrated with over 300 carefully selected images The end result is a detailed comprehensive and fascinating account of an extraordinary company **The**

Leyland Octopus Graham Edge,2004-09-14 Rigid eight wheelers with internal combustion engines were developed as a response to requirements and opportunities embedded in the 1933 Road and Rail Traffic Act Although AEC was first in the field in late 1934 or early 1935 Leyland was able to announce its Octopus By the Second World War the Octopus had become

a favourite with operators known to carry a legal payload economically and reliably After the war the driveline of the Octopus basically remained unchanged until 1960 Specification options were few yet the model remained a market leader with lengthy waiting lists for new chassis The model remained in production until the late 1970s and as AEC authority Graham edge writes For most of its productive life the Leyland Octopus was the definitive British eight wheeler lorry The many superb photographs in this book range from shots from the 1930s including what is probably the first Octopus chassis and a rare TEW tipper to 1979 and an Octopus 2 which started service that year with a compacting refuse body The text covers the full production story and there are Appendices which give chassis and engine details You Call, We Haul Mat

Ireland,2019-08-01 Best known for founding international haulier Trans UK Bob Carter was involved in the ground breaking changes occurring in British transport of the 60s and 70s Beginning in the army where he witnessed nuclear testing on Christmas Island in the 1950s Carter went on to be a driver office worker and finally company owner Never afraid to get his hands dirty Bob was able to turn his hand to any aspect of his business operation from repairing mechanical defects to operating forklifts and driving his own trucks In 1975 he set out on Trans UK s maiden run to Iran in his Humber Sceptre with four of his trucks in convoy the first trip of many for the company The denationalization of BRS and the implementation of the O licence the rapid growth of privately owned haulage companies combined with the Middle East oil boom of the 70s all helped Bob to develop a successful British and international transport operation Including nearly 300 previously unpublished photos You Call We Haul is an inspirational story which will appeal to those with an interest in the heyday of Middle East travel and those with a general love of great British transport companies Subject Middle East Studies Transportation Biography
