of program delivery He calls for increases in honours undergraduate programs and polytechnic education and envisions a group of research intensive universities responsible for doctoral education The existing design Fallis contends neglects the specific needs of graduate education and research layering it on top of a system designed for undergraduate education In addition there is disconnection between Ontario s Ministry of Training Colleges and Universities and the research missions of the universities and colleges themselves Fallis recommends that Ontario establish a system for documenting and assessing the quality of research published at universities Thought provoking and thoroughly argued *Rethinking Higher Education* provides a detailed design for higher education in the twenty first century      **California.
