

BRASS METAL

Brass is an alloy of copper and zinc. It is a hard, strong metal, and is used for many purposes. It is often used for making coins, and for making decorative objects. It is also used for making mechanical parts, and for making electrical contacts. Brass is a good conductor of electricity, and it is also resistant to corrosion. It is a good material for making many types of machinery, and it is also used for making many types of tools. Brass is a very versatile metal, and it is used in many different ways.
