Tracey, Köster Florian, Fuster Marc, 2016-09-09 Governing multi level education systems requires governance models that balance responsiveness to local diversity with the ability to ensure national objectives **Statewide Exit Exams,**

Governance, and School Development Esther Dominique Klein, 2013 In the context of outcomes based school governance

statewide exit exams are often expected to have a positive effect on student achievements if schools and teachers use the performance feedback from the exams for school instructional and professional development. However, very little is known about whether the exams are used for development at all and how this is affected by factors in the exam system and organizational aspects of schools. In a comparison of Finland, Ireland, and the Netherlands, the study therefore investigates how different exam systems and their functions, the conditions at school level, and the use of the exams for school and classroom development are associated. The study uses expert interviews and a questionnaire survey with principals and teachers. The role statewide exit exams can play in education systems is analyzed from a governance perspective and a school development perspective and discussed with an international comparative view. Esther Dominique Klein, born in 1982, Dr. phil., is research assistant at the Faculty of Educational Sciences of the University of Duisburg-Essen. Her main research interests lie in the areas of school system and school development research and international comparative education.

Governing Educational Spaces Hans-Georg Kotthoff, Eleftherios Klerides, 2015-12-14. The governance of education in many countries and regions of the world is currently in transition, challenging histories, remaking subjectivities, and shaping possible futures. This book provides an up-to-date analysis and discussion of the cutting-edge theme of educational governance from an international comparative perspective. The volume explores the landscape of educational governance in its broadest sense, considering new forms of steering, leadership, and management, assessment and evaluation, teaching and learning, knowledge creation, and the realities and possibilities for different forms of political engagement. The new spatial dynamics of education are explored in institutional settings such as schools and universities and via professional groupings such as teachers, administrators, and leaders. The chapters in this book are based on the best peer-reviewed papers and keynote speeches which were delivered at the XXVI Conference of the Comparative Education Society in Europe (CESE) in June 2014 in Freiburg, Germany. Comparative Education is uniquely situated to explore the emerging dynamics of educational governance within changing and newly emerging educational spaces because it provides the opportunity to learn more about different local, national, or regional educational processes and trajectories and to share knowledge about the logics, ideologies, and impacts of different techniques and regimes of governance across Europe and beyond. Hans-Georg Kotthoff is Professor of Comparative Education and School Pedagogy at the University of Education, Freiburg, Germany, and President of the Comparative Education Society in Europe (CESE) since 2012. Eleftherios Klerides is Lecturer in Comparative Education and History of Education at the University of Cyprus and the Secretary/Treasurer of the Comparative Education Society in Europe (CESE).

Politics, Education and Social Change Agnieszka Gromkowska-Melosik, Inetta Nowosad, Aleksandra Boroń, Marzanna Farnicka, Marcin Gierczyk, 2025-01-20. The authors analyse macro-level political decisions across various societies as well as individual actions and experiences to advocate for a more inclusive and effective education system capable of driving social change. They consider relationships between politics, education, and social change in various contexts and dimensions. The

macro level of educational policy and politics is confronted with the micro realities of human biographies. However, the authors do not consider people who are influenced by political decisions as incapacitated mass. Thus, social change always results from these macro-micro connections. This interdisciplinary book includes themes related to political sciences, education, and sociology, which resulted from the authors' study of contemporary social and education phenomena. It gives insight into interesting paradoxes and controversies.

Schul- und Unterrichtsreform durch ergebnisorientierte Steuerung Albrecht Wacker, Uwe Maier, Jochen Wissinger, 2012-03-23. Die Einführung sogenannter Neuer Steuerung im Schulsystem hat in jüngerer Zeit verstärkt die Frage aufgeworfen, inwieweit die politisch und ökonomisch motivierten Reformen der Steuerung evidenzbasiert sind und welche Bedeutung die gewonnenen Informationen für die Praxis und die Politik besitzen. Insgesamt stellt sich damit die Frage, ob die Erwartungen und Optimierungshoffnungen der auf evidenzbasierte Steuerungsansätzen beruhenden Reformen auf schul- und unterrichtspraktischer Ebene überhaupt erfüllt werden können. Welche beabsichtigten und nicht beabsichtigten Effekte resultieren aus den neuen Steuerungsinstrumenten? Dieser Band macht aktuelle empirische Forschung zum Steuerungsdiskurs zugänglich und zeigt einmal mehr die theoretischen und methodischen Implikationen einer neuen Steuerungsforschung.

Perspectives on Leading Low-Performing Schools Coby V. Meyers, Marlene J. Darwin, 2018-08-01 Research is clear School leadership quality matters However our knowledge of effective school leadership remains limited in at least three substantial ways First our understanding of school leadership effectiveness generally and school principal effectiveness specifically is limited to Western contexts primarily North America and western European ones Second even in the confines of Western research and context there has been relatively little specific focus on effectively leading low performing schools Third even the conceptualization of leadership do we mean the school principal an administrative team or a broader school leadership team is a key factor in how we define and respond to the challenge of leading in low performing schools This book advances discussion and disseminates knowledge and global perspectives on what school leadership looks like how it is enacted and under what circumstances and when or where lessons might be portable We anticipate this book having wide appeal for researchers policymakers and practitioners considering school leadership and how to support it effectively The chapters suggest a noticeable level of convergence globally on how to lead low performing schools effectively Yet there are clear political and culture differences that add significant gradation to how school leaders might enact best practice locally or inform policymakers and systems leaders about how to set up school leaders for success and subsequently support them This book is one of the first that prioritizes the universality and nuance of leading low performing schools globally The SAGE Handbook of Educational Action Research Bridget Somekh, 2009-05-19 There has been a huge growth of interest in action research in educational settings over the past 20 years across the Americas Europe Australia and Africa this Handbook

provides a scholarly reference text that will inform the development of the field
