## **Infecting The Treatment Being An Hiv Positive Analyst:**

Infecting the Treatment Gilbert Cole, 2013-04-15 The revelation of being HIV positive continues to be a discourse fraught with meaning In *Infecting the Treatment Being an HIV Positive Analyst* Gilbert Cole offers an intimate and deeply insightful examination of disclosure of his HIV seropositivity on his analytic sense of self and on his clinical work with patients Cole begins his journey of discovery by meditating on the meanings that being HIV positive have had for him and by situating these personal meanings within the multiple meanings of HIV seropositivity generated by our culture leading to a clinical discussion of the pros and cons of disclosure to one's patients What begins as a consideration of disclosure of an ostensibly medical fact opens to an exploration of the broader problematic of disclosure in the context of questions of sameness and difference of dependence and autonomy and of the ethical ground of psychoanalytic practice He illuminates these issues by circling back to his own predicament which took the form of an apparent conflict between his self image as a psychoanalytic therapist committed to a psychoanalytic treatment approach and aspects of his self experience that seemed uncomfortably dissonant with this identity and this commitment He approached resolution of this conflict when he became able to use his HIV seropositivity as a metaphor for aspects of the treatment process Comprising Cole's personal engagement of the issues inherent in being an HIV positive analyst his report of clinical work attendant to disclosure of his condition and a research project compiling the experiences of other HIV positive analysts *Infecting the Treatment* is an intimate and deeply insightful examination of the impact of one analyst's disclosure of HIV seropositivity on his analytic sense of self With admirable candor and uncommon thoughtfulness Cole shows how the analyst's disclosure of information of the most meaningful sort may deepen and even transform the therapeutic dialogue *Uncoupling Convention* Ann D'Ercole, Jack Drescher, 2013-06-17

What does it mean to be member of a gay lesbian couple or family The contributors to *Uncoupling Convention Psychoanalytic Approaches to Same Sex Couples and Families* address this question by drawing on two cultural movements of the twentieth century psychoanalysis and the gay lesbian civil rights movement Taken together these traditions provide a framework for understanding and providing psychotherapeutic assistance to gay and lesbian patients who present with troubled relationships The contributors to this volume espouse a clinical focus that supplants the heterosexual perspectives of traditional psychoanalysis with new narratives about family life Drawing on cultural feminist gay lesbian and queer studies they illustrate how concepts of gender and sexuality are routinely informed by unproven heterosexist assumptions both conscious and unconscious By examining the changing developmental needs and family dynamics of gay and lesbian families the contributors broaden our very understanding of what a family is They illustrate how contrasting cultural constructions of homosexuality and family life play out in same sex couples They delineate the multiple realities of gender subjectivity both in children and in their gay parents They ponder how technology is shaping reproductive experiences as lesbians become part of the biomedical system And they explore recurrent themes of feeling different and ashamed including the shameful secrecy

surrounding same sex couples financial matters In uncoupling conventions the contributors are effectively coupling post Freudian psychoanalysis with the insights of queer theory and the critical edge of contemporary cultural studies The result is a framework for addressing the relational and family related challenges of gay and lesbian patients that ranges far beyond traditional approaches and will benefit analytic couples and family therapists alike *Psychotherapy with Gay Men and Lesbians* Jack Drescher, Ann D'Ercole, Erica Schoenberg, 2014-02-25 Examine gay and lesbian psychoanalysis from a variety of perspectives Psychotherapy with Gay Men and Lesbians Contemporary Dynamic Approaches presents case histories of psychotherapy sessions with gay and lesbian patients focusing on today's psychoanalytical approaches Dedicated to enhancing the emotional psychological and psychiatric treatment of gay men lesbians and bisexuals the book features prominent analysts with a wide range of clinical and theoretical approaches The foremost experts in the therapeutic field address issues affecting gay and lesbian patients from psychoanalytic perspectives that respect the patients sexual identities Psychotherapy with Gay Men and Lesbians reflects the significant clinical and theoretical changes therapists face in dealing with issues of gender and sexuality New ways of thinking coexist with traditional theory as paradigm shifts in psychotherapy and psychoanalysis affect the treatment of gay lesbian and bisexual patients This book provides a forum to address those changes through clinical papers and discussions Psychotherapy with Gay Men and Lesbians includes discussion of case reports that deal with gay therapists treating gay patients countertransferential enactments of sex and gender in treatment rethinking the meanings of homosexuality psychotherapeutic treatment of gay male patients with AIDS and much more Psychotherapy with Gay Men and Lesbians is an essential forum for the exchange of clinical information on gay and lesbian psychotherapy The book is a valuable resource for psychiatrists psychologists social work therapists psychoanalysts and anyone interested in today's psychoanalytic approaches to homosexuality *Relational Psychoanalysis, Volume 3* Melanie Suchet, Adrienne Harris, Lewis Aron, 2013-04-15 Relational psychoanalysis has revived psychoanalytic discourse by attesting to the analyst's multidimensional subjectivity and then showing how this subjectivity opens to deeper insights about the experience of analysis Volume 3 of the Relational Psychoanalysis Book Series enlarges this ongoing project in significant ways Here leading relational theorists explore the cultural racial class conscious gendered and even traumatized anlagen of the self as pathways to clinical understanding Relational Psychoanalysis New Voices is especially a forum for new relational voices and new idioms of relational discourse Established writers Muriel Dimen Sue Grand and Ruth Stein among them utilize aspects of their own subjectivity to illuminate heretofore neglected dimensions of cultural experience of trauma and of clinical stalemate A host of new voices applies relational thinking to aspects of race class and politics as they emerge in the clinical situation The contributors to Relational Psychoanalysis New Voices are boldly unconventional in their topics in their modes of discourse and in their innovative and often courageous uses of self Collectively they convey the ever widening scope of the relational sensibility The relational turn keeps turning **Writing on the Moon** Bonnie Zindel, 2018-05-08
