

Psychotherapy Progress Note

Use this note to document individual, family or couples psychotherapy sessions and person's response to the intervention during a specific contact.

Data Field	
Person's Name	Record the first name, last name, and middle initial of the person. Order of name is at agency discretion.
Record Number	Record your agency's established identification number for the person.
Person's DOB	Record the person's date of birth.
Organization Name:	Record the organization for whom you are delivering the service.
Modality	Check appropriate box to indicate the type of session: individual, family or couple.
List Name(s) of Person(s) Present	Check appropriate box to indicate whether the person is Present, is a No Show/Cancelled or the Provider Cancelled. For cancellations, complete Explanation as needed. Check appropriate box to indicate if others are present, list name(s) and relationship(s) to person.
Person's Report of Progress Towards Goals/Objectives Since Last Session	Document person's self-report of progress towards goals since last session including other sources of information, such as family, case manager, etc.
New Issue(s) Presented Today	There are four options available for staff using this section of the progress note: 1. If person does not report/present any new issues, mark "None Reported" and proceed to planned intervention/goals. 2. If person reports a new issue that was resolved during the session, check the "New Issue resolved, no CA Update required" box. Briefly document the new issue, identify the interventions used in the Therapeutic Interventions Section, and indicate the resolution in the Response Section of the progress note. Example: Person described being involved in a minor car accident today. Person was not hurt but expressed concern regarding expense of car repair. Person felt more relieved after identifying ways to cover expense over the next two weeks. 3. If person presents an issue that has been previously assessed and for which Goals/Objectives and services have been ordered, then the information may be briefly documented as an indicator of the progress or lack of progress achieved. 4. If person presents any new issue(s) that represent a therapeutic need that is not already being addressed in the IAP, check box indicating a "CA Update Required" and record notation that new issue has been recorded on a Comprehensive Assessment Update of the same Date and write detailed narrative on the appropriate CA Update as instructed in this manual. Also, the newly assessed therapeutic information may require a new goal, objective, therapeutic intervention or service that will require further use of the IAP Review/Revision form. Example: Person reported for the first time that she was a victim of abuse/neglect at the age of twelve as recorded on the Comprehensive Assessment Update of this date.

Psychotherapy Tradecraft: The Technique And Style Of Doing Theodore H. Blau, 2014-01-09 First published in 1988 The literature of psychotherapy is heavily weighted on the side of theory There is an almost complete absence of tradecraft what to do when to do it and how to do it Tradecraft refers to the specific techniques used by experienced and skillful psychotherapists to create the therapeutic setting to invite and maintain a therapeutic alliance to enhance the patient's progress and finally to allow the patient to integrate and complete the process of psychotherapy A search of psychoanalytic literature reveals an enormous amount of theory and speculation countertheory and counter speculation but little tradecraft This book aims to fulfil that gap

Therapeutic Failures in Psychotherapy

Nicola Gazzola, Shigeru Iwakabe, Sarah Knox, 2023-10-17 This book examines therapeutic failures in psychotherapy Despite the consistent positive outcome findings and psychotherapists best intentions in their efforts to help their clients psychotherapy simply does not work in all cases In fact 5 10% of adult clients deteriorate during psychotherapy Although not exclusively due to treatment failures per se almost a fifth of clients terminate their therapy prematurely and findings suggest that that between 20 and 30% of clients do not return after the first session with half terminating after just two sessions Therapeutic failures could include a range of negative therapy outcomes such as harm deterioration client non response premature termination or dropout as well as process factors such as negative therapy experiences impasses or alliance ruptures Investigating therapeutic failures holds the key to improving the effectiveness of psychotherapy as well as understanding some of the fundamental conditions that need to be in place for the change mechanisms of psychotherapy to take effect Although psychotherapy has made many strides over the last few decades to improve research rigour and to promote evidence based practices it is a profession that is still growing By embracing the opportunity to learn from therapeutic failures the profession will continue to refine its practices to better serve clients and to strive toward developing ethical and effective practices Both comprehensive and accessible this book will be of great interest to psychotherapists in practice therapists in training as well as students and professionals in psychology and mental health in general The chapters in this book were originally published in *Counselling Psychology Quarterly*
