Epistolary Practices William Merrill Decker,2000-11-09 Letters have long been read as primary sources for biography and history but their performative fictive and textual dimensions have only recently attracted serious notice In this book William Merrill Decker examines the place of the personal letter in American popular and literary culture from the colonial to the postmodern period After offering an overview of the genre Decker explores epistolary practices that coincide with American experiences of space settlement separation and reunion He discusses letters written by such well known and well educated persons as John Winthrop Benjamin Franklin Thomas Jefferson Abigail and John Adams Nathaniel Hawthorne Margaret Fuller Henry David Thoreau Samuel Clemens Henry James and Alice James but also letters by persons who except in their correspondence were not writers at all indentured servants New England factory workers slaves soldiers and Western pioneers Individual chapters explore the letter writing of Ralph Waldo Emerson Emily Dickinson and Henry Adams three of America s most ambitious accomplished and theoretically astute letter writers Finally Decker considers the ongoing transformation of letter writing in the electronic age

Plato's Democratic Entanglements S. Sara Monoson,2013-08-18 In this book Sara Monoson challenges the longstanding and widely held view that Plato is a virulent opponent of all things democratic She does not

however offer in its place the equally mistaken idea that he is somehow a partisan of democracy. Instead she argues that we should attend more closely to Plato's suggestion that democracy is horrifying and exciting and she seeks to explain why he found it morally and politically intriguing. Monoson focuses on Plato's engagement with democracy as he knew it: a cluster of cultural practices that reach into private and public life as well as a set of governing institutions. She proposes that while Plato charts tensions between the claims of democratic legitimacy and philosophical truth, he also exhibits a striking attraction to four practices central to Athenian democratic politics: intense antityrannism, frank speaking, public funeral oratory, and theater-going. By juxtaposing detailed examination of these aspects of Athenian democracy with analysis of the figurative language, dramatic structure, and arguments of the dialogues, she shows that Plato systematically links democratic ideals and activities to philosophic labor. Monoson finds that Plato's political thought exposes intimate connections between Athenian democratic politics and the practice of philosophy. Situating Plato's political thought in the context of the Athenian democratic imaginary, Monoson develops a new, textured way of thinking of the relationship between Plato's thought and the politics of his city.

The Cultic Motif in the Book of Daniel Winfried Vogel, 2010. This unique study of the theology of the book of Daniel examines the cultic motif within the book as it relates to space and time. Numerous references and allusions to cult are investigated with linguistic, literary, and contextual analyses. The findings are then related to the main theological themes of the book, such as judgment, eschatology, kingdom, and worship. It is evident that the idea of cult plays a dominant role in Daniel and that it demonstrates the intention of the author to present the issue of conflict of two opposing systems of cult and worship. For all who are interested in an exegesis of Daniel that pays dutiful attention to the theology of Daniel, *The Cultic Motif in the Book of Daniel* is a must read.

Black Officer in a Buffalo Soldier Regiment Brian Shellum, 2010-02-01. An unheralded military hero, Charles Young (1864-1922) was the third black graduate of West Point, the first African American national park superintendent, the first black U.S. military attaché, the first African American officer to command a Regular Army regiment, and the highest ranking black officer in the Regular Army until his death. *Black Officer in a Buffalo Soldier Regiment* tells the story of the man who willingly or not served as a standard bearer for his race in the officer corps for nearly thirty years and who, if not for racial prejudice, would have become the first African American general.
