Broadcast Hysteria A. Brad Schwartz, 2025-09-23 On the evening of October 30 1938 radio listeners across the United States heard a startling report of a meteor strike in the New Jersey countryside With sirens blaring in the background announcers in the field described mysterious creatures terrifying war machines and thick clouds of poison gas moving toward New York City As the invading force approached Manhattan some listeners sat transfixed while others ran to alert neighbors or to call the police Some even fled their homes But the hair raising broadcast was not a real news bulletin it was Orson Welles's adaptation of the H G Wells classic *The War of the Worlds* In *Broadcast Hysteria* A Brad Schwartz boldly retells the story of Welles's famed radio play and its impact Did it really spawn a wave of mass hysteria as *The New York Times* reported Schwartz is the first to examine the hundreds of letters sent to Orson Welles himself in the days after the broadcast and his findings challenge the conventional wisdom Few listeners believed an actual attack was under way But even so Schwartz shows that Welles's broadcast became a major scandal prompting a different kind of mass panic as Americans debated the bewitching power of the radio and the country's vulnerability in a time of crisis When the debate was over American broadcasting had changed for good but not for the better As Schwartz tells this story we observe how an atmosphere of natural disaster and impending war permitted broadcasters to create shared live national experiences for the

first time We follow Orson Welles's rise to fame and watch his manic energy and artistic genius at work in the play's hurried yet innovative production And we trace the present day popularity of fake news back to its source in Welles's show and its many imitators Schwartz's original research gifted storytelling and thoughtful analysis make Broadcast Hysteria a groundbreaking new look at a crucial but little understood episode in American history

reading suggestions **Social impact of media discourse in the age of iDeology. A perspective from the global periphery** Martin A. M. Gansinger, 2019-05-23 In the age of iDeology in which individual access and participation to technology is about to replace the rich texture of religion culture tradition and political convictions the social impact of media discourse only magnifies This volume is an attempt to explore the influence of ever available communication content on the minds and behavior of a population that has made the permanent and often obsessive use of communication technology a defining element of social orientation Unlike the many accounts that focus on the remarkably redefined patterns in the context of Western society ranging from twittering Presidents to the emerging populist movements all over Europe this volume portrays the situation from the frequently neglected perspective of the global periphery As opposed to simply transfer and measure perspectives taken from a Western point of view the clear intention of this volume is to provide ample space for the sincere and explorative consideration of local characteristics and settings of the different social cultural and political contexts and therefore contribute to providing the ground for future research **The SAGE Encyclopedia of Theory in Science, Technology, Engineering, and Mathematics** James Mattingly, 2022-09-21 The SAGE Encyclopedia of Theory is a landmark work that examines theory in general and the broad split between the hard and soft sciences a split that is being re examined as approaches to scientific questions become increasingly multidisciplinary **Media, Conflicts and the National Security Question** Abiodun Adeniyi, Paul A. Obi, Sani K. Usman, Ibrahim U. Yusuf, 2025-03-15 This book explores how the media and journalism in a cross disciplinary sense has treated conflicts in Nigeria West Africa and the Sahel Contributors connect theoretical foundations with practical experiences in the study of media conflicts and national security seeking to unravel the mediated and communication logic s in news coverage and analyse the media s role in pre conflict in conflict and post conflict discourses The work maps out the impact of mediated narratives on security risk terrorism banditry and general society relying on local on the spot and ontological cultural experiences in Africa especially Nigeria Ghana Sierra Leone and other parts of West Africa *Encyclopedia of Information Science and Technology, Third Edition* Khosrow-Pour, D.B.A., Mehdi, 2014-07-31 This 10 volume compilation of authoritative research based articles contributed by thousands of researchers and experts from all over the world emphasized modern issues and the presentation of potential opportunities prospective solutions and future directions in the field of information science and technology Provided by publisher
