Salient Features

392 pages of heavily illustrated text

Covers detailed description of the tools of Navisworks 2017

Explains the concepts using real world projects and examples focusing on industry experience

Covers advanced functions such as creating visualizations with Autodesk Rendering

Covers topics such as how to import a file in different formats

navigate around the merged 3D model

manage annotations and documentation

coordinate schedules with TimeLiner

and estimate project with Quantification

Includes an exercise on creating car animation using Animator and Scriptor tool

Provides step by step explanation that guide the users through the learning process

Effectively communicates the utility of Navisworks 2017

Self Evaluation Test and Review Questions at the end of chapters for reviewing the concepts learned in the chapters

Autodesk Navisworks 2021: Fundamentals

ASCENT - Center for Technical Knowledge, 2020-12-07

The Autodesk R Navisworks R 2021 Fundamentals guide teaches you how to better predict project outcomes reduce conflicts and changes and achieve lower project risk using the Autodesk R Navisworks R Manage software in a BIM workflow

Building Information Modeling BIM encompasses the entire building life cycle

BIM includes all phases of the design process from model creation to construction and ending at operations and maintenance

Using a BIM workflow you will learn how a design changes throughout the BIM process and how the changes affect the BIM model

Over the course of this guide you will learn how to consolidate civil architectural structural and MEP models into one BIM model

Starting with an Autodesk R Civil 3D R drawing file you will append various Autodesk R Revit R and Autodesk R Inventor R models and check for conflicts

Next you will use review and markup tools for communicating issues across disciplines

Finally you will use TimeLiner Animator and Clash Detective to simulate construction and find constructibility issues and on site clashes

This guide is designed for new and experienced users of the Autodesk Navisworks software in multiple disciplines

Topics Covered

Understanding the purpose of Building Information Modeling BIM and how it is applied in the Autodesk Navisworks software

Consolidate Models

Navigating the Autodesk Navisworks workspace and interface

Creating a composite model

Transforming models for proper alignment

Review and Analyze Models

Using basic viewing tools

Saving and retrieving views

Sectioning a model

Investigating properties

Searching for items

Hiding and unhiding items

Communication

Measuring a model

Adding tags and comments to model components

Marking up and redlining the model

Animate a model

Writing scripts for interacting with the model

Creating photorealistic images

Collaboration

Reviewing a model for clashes

Consolidating redlines from other team members

Performing quantification calculations and material takeoffs

Construction

Creating a construction timeline

Animating a construction
