Violence in Defeat Bastiaan Willems,2021-02-18 In the final year of the Second World War as bitter defensive fighting moved to German soil a wave of intra ethnic violence engulfed the country Bastiaan Willems offers the first study into the impact and behaviour of the Wehrmacht on its own territory focusing on the German units fighting in East Prussia and its capital Königsberg He shows that the Wehrmacht s retreat into Germany after three years of brutal fighting on the Eastern Front contributed significantly to the spike of violence which occurred throughout the country immediately prior to defeat

Soldiers arriving with an ingrained barbarised mindset developed on the Eastern Front shaped the immediate environment of the area of operations and of Nazi Germany as a whole Willems establishes how the norms of the Wehrmacht as a retreating army impacted behavioural patterns on the home front arguing that its presence increased the propensity to carry out violence in Germany
