**Eighteenth-Century German Philosophy** Andree Hahmann,Stefan Klingner,2023-10-04 The purpose of this anthology is to bring together in one volume some of the texts published in the series Werkprofile which focus on Kant s relationship to his philosophical contemporaries and predecessors and to make them accessible to a wider audience in English In doing so the volume is aimed at those who have an interest in better understanding the premises of Kant s philosophy its historical context and the development of many of Kant s fundamental ideas As it is often hard to glean philosophical motivation directly from reading Kant s texts understanding Kant s commitment to answering certain questions and his silence on others requires a historical approach This broader purview will also be helpful for grasping deeper systematic questions at work throughout Kant s philosophy The anthology thus aims at inviting a more wide angled view of Kant s philosophy by focusing on overlooked references and historical figures Scholarship on these references is still at an early stage even though important steps have been taken in this direction in recent years The aim of our volume is to build on this development and to supplement and expand the content of existing research **Kant and the Problem of Self-Knowledge** Luca

Forgione,2018-10-17 This book addresses the problem of self knowledge in Kant s philosophy As Kant writes in his major works of the critical period it is due to the simple and empty representation I think that the subject s capacity for self consciousness enables the subject to represent its own mental dimension This book articulates Kant s theory of self knowledge on the basis of the following three philosophical problems 1 a semantic problem regarding the type of reference of the representation I 2 an epistemic problem regarding the type of knowledge relative to the thinking subject produced by the representation I think and 3 a strictly metaphysical problem regarding the features assigned to the thinking subject s nature The author connects the relevant scholarly literature on Kant with contemporary debates on the huge philosophical field of self knowledge He develops a formal reading according to which the unity of self consciousness does not presuppose the identity of a real subject but a formal identity based on the representation I think **Narratives of fear and safety**

John's Relationship with Mark Ian D. Mackay,2004 This book is a literary historical enquiry into the relationship between John and Mark with special emphasis on the feeding saga in each Because of the differences between these key canonised texts the question of how their differences are to be understood is important in regard to our understanding of Biblical authority and interpretation and in particular of the meaning and importance of the Eucharist The research finds that the writers of John s Gospel knew Mark and that John shows a certain degree of influence from it both positive and negative Ian D Mackay surveys the debate to date looks at general literary and strategic similarities and differences between John and Mark and then analyses John 6 in comparison with Mark 6 8 and certain other related texts in Mark The detailed analysis of the debate the points of literary similarity between the two Gospels as a whole and the emergence of Markan strategies lifted from Mark and applied in John to

supporting a literary agenda virtually contrary to that of Mark especially in regard to the roles of the disciples and the crowds in the plot of each as a whole may well be useful for those interested in the question of how the four Gospels relate to one another      The Publishers' Trade List Annual ,1887      *The Child's View of the Third Reich in German Literature* Debbie Pinfold,2001-08-23 This book examines the ways in which German authors have used the child s perspective to present the Third Reich It considers how children at this time were brought up and educated to accept unquestioningly National Socialist ideology and thus questions the possibility of a traditional naive perspective on these events Authors as diverse as G nter Grass Siegfried Lenz and Christa Wolf together with many less well known writers have all used this perspective and this raises the question as to why it is such a popular means of confronting the enormity of the Third Reich This study asks whether this perspective is an evasive strategy a means of gaining new insights into the period or a means of discovering a new language which had not been tainted by Nazism This raises and addresses issues central to a post war aesthetic in German writing      *Major 20th-century Writers* Bryan Ryan,1991 VOL 1 A D VOL 2 E K VOL 3 L Q VOL 4 R Z INDEXES      *The Miracle Years* Hanna Schissler,2020-12-08 Stereotypical descriptions showcase West Germany as an economic miracle or cast it in the narrow terms of Cold War politics Such depictions neglect how material hardship preceded success and how a fascist past and communist sibling complicated the country s image as a bastion of democracy Even more disappointing they brush over a rich and variegated cultural history That history is told here by leading scholars of German history literature and film in what is destined to become the volume on postwar West German culture and society In it we read about the lives of real people from German children fathered by black Occupation soldiers to communist activists from surviving Jews to Turkish guest workers from young hoodlums to middle class mothers We learn how they experienced and represented the institutions and social forces that shaped their lives and defined the wider culture We see how two generations of West Germans came to terms not only with war guilt division from East Germany and the Angst of nuclear threat but also with changing gender relations the Americanization of popular culture and the rise of conspicuous consumption Individually these essays peer into fascinating overlooked corners of German life Together they tell what it really meant to live in West Germany in the 1950s and 1960s In addition to the editor the contributors are Volker R Berghahn Frank Biess Heide Fehrenbach Michael Geyer Elizabeth Heineman Ulrich Herbert Maria H hn Karin Hunn Kaspar Maase Richard McCormick Robert G Moeller Lutz Niethammer Uta G Poiger Diethelm Prowe Frank Stern Arnold Sywottek Frank Trommler Eric D Weitz Juliane Wetzler and Dorothee Wierling      **Film Propaganda in Britain and Nazi Germany** Jo Fox,2006-12-01 Propaganda so crucial to winning the battle of hearts and minds in warfare witnessed a transformation during World War II when film was fast becoming the most popular form of entertainment In *Film Propaganda in Britain and Nazi Germany* Jo Fox compares how each country exploited their national cinema for political purposes Through an investigation of shorts and feature films the author looks at how both political propaganda films and escapist cinema were

critical in maintaining the morale of civilians and the military and how this changed throughout the war While both countries shared certain similarities in their wartime propaganda films a harking back to a glorious historic past for example the thematic differences reveal important distinctions between cultures This book offers new insight into the shifting pattern of morale during World War II and highlights a key moment in propaganda film history
