*Collecting for the Curriculum* Amy J. Catalano, 2015-09-28 If you are a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book is the only one that offers explicit advice on collection development in curriculum collections for you. While there are many publications on the Common Core for school librarians and K-12 educators, no such literature exists for curriculum librarians at the post-secondary level. This book fills that gap, standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards (CCSS). The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices. The book begins with a primer on the CCSS and how curriculum librarians can support them. Discussion of the Standards is then woven through chapters arranged by content area that share research-based practices in curriculum development and instruction to guide you in curriculum selection. Material types covered include games, textbooks, children's literature, primary sources, counseling, and nonfiction. Additional chapters cover the management of curriculum collections, testing collections, and instruction and reference, as well as how to support and collect for special needs learners. Current practices in collection development for curriculum materials librarians are also reviewed. The book closes with a discussion of the future of curriculum materials.

*Rural School Leadership* Christian P. Wilkens, Janice DeVore Littlebear, Robert S. Thompson, 2024-11-25 *Rural School Leadership: Lessons from Alaska* is a guide for leaders in rural schools. The book tells stories, provides clear examples, and practical school improvement strategies. Throughout the book, authors discuss how leaders can help their schools meet the needs of both Indigenous and Western systems. Chapters are organized around specific areas of interest for rural school leaders, such as cross-cultural leadership, academic improvement, and leading small schools. **Curriculum Bulletin**, 1939

**Curriculum Review**, 1983 *Literate Lives* Amy Seely Flint, 2007-11-09 *Literate Lives: Teaching Reading and Writing in Elementary Classrooms* invites readers to consider the complexities of the reading process in diverse settings. The text is designed to meet the challenges and needs of undergraduate and graduate teacher candidates in elementary education programs, helping them to have a better first year in the classroom experience. The text introduces teacher candidates to the notion that reading is a complex, multi-layered process that begins early in a child's life. Reading, by all accounts, is more than decoding symbols on a page. While this is one component of the reading process, it is important for teacher candidates to see a broader, more complete picture of reading. Given the role that reading plays in the elementary school curriculum, it is imperative that teachers have a well-developed understanding of the reading process and what it means to be a teacher of readers. *Literate Lives: Teaching Reading and Writing in the Elementary Classroom* covers the major theories and application strategies of the reading process, as well as current debates in the field, using a unique framework that builds upon the following themes: believing that literacy is based in social, cultural, and historical contexts; assuming an inquiry stance; being

problem posers and wondering why using kidwatching Goodman 1985 as an assessment tool to make informed instructional decisions recognizing and using the multiple literacies that children bring to the classroom lingering and reflecting on one's decisions in light of what one knows and believes *Catalog of Copyright Entries.
