It Was Like A Fever Storytelling In Protest And Politics:

It Was Like a Fever Francesca Polletta, 2009-01-14 Activists and politicians have long recognized the power of a good story to move people to action In early 1960 four black college students sat down at a whites only lunch counter in Greensboro North Carolina and refused to leave Within a month sit ins spread to thirty cities in seven states Student participants told stories of impulsive spontaneous action this despite all the planning that had gone into the sit ins It was like a fever they said Francesca Polletta's *It Was Like a Fever* sets out to account for the power of storytelling in mobilizing political and social movements Drawing on cases ranging from sixteenth century tax revolts to contemporary debates about the future of the World Trade Center site Polletta argues that stories are politically effective not when they have clear moral messages but when they have complex often ambiguous ones The openness of stories to interpretation has allowed disadvantaged groups in particular to gain a hearing for new needs and to forge surprising political alliances But popular beliefs in America about storytelling as a genre have also hurt those challenging the status quo A rich analysis of storytelling in courtrooms newsrooms public forums and the United States Congress *It Was Like a Fever* offers provocative new insights into the dynamics of culture and contention *Handbook of Politics* Kevin T. Leicht, J. Craig Jenkins, 2009-11-28 Political sociology is the interdisciplinary study of power and the intersection of personality society and politics The field also examines how the political process is affected by major social trends as well as exploring how social policies are altered by various social forces Political sociologists increasingly use a wide variety of relatively new quantitative and qualitative methodologies and incorporate theories and research from other social science cognate disciplines The contributors focus on the current controversies and disagreements surrounding the use of different methodologies for the study of politics and society and discussions of specific applications found in the widely scattered literature where substantive research in the field is published This approach will solidly place the handbook in a market niche that is not occupied by the current volumes while also covering many of the same theoretical and historical developments that the other volumes cover The purpose of this handbook is to summarize state of the art theory research and methods used in the study of politics and society This area of research encompasses a wide variety of perspectives and methods that span social science disciplines The handbook is designed to reflect that diversity in content method and focus In addition it will cover developments in the developed and underdeveloped worlds The Art of Political Storytelling Philip Seargeant, 2020-05-14 In our post truth world tapping into people's emotions has proved far more effective than rational argument and as Philip Seargeant argues in this illuminating and entertaining book the most powerful tool for manipulating emotions is a gripping narrative From Trump's America to Brexit Britain weaving a good story featuring fearless protagonists challenging quests against seemingly insurmountable odds and soundbite after soundbite of memorable dialogue has been at the heart of political success So does an understanding of the art of storytelling help explain today's successful political movements Can it translate into a blueprint

for victory at the ballot box *The Art of Political Storytelling* looks at how stories are created shared and contested illuminating the pivotal role that persuasive storytelling plays in shaping our understanding of the political world we live in By mastering the tools and tricks of narrative and evaluating the language and rhetorical strategies used to craft and enact them Seargeant explains how and why today's combination of new media populism and partisanship makes storytelling an ever more important part of the persuasive and political process In doing so the book offers an original and compelling way of understanding the chaotic world of today's politics

Tear Gas Epiphanies Kirsty Robertson, 2019-06-07 Museums are frequently sites of struggle and negotiation They are key cultural institutions that occupy an oftentimes uncomfortable place at the crossroads of the arts culture various levels of government corporate ventures and the public Because of this museums are targeted by political action but can also provide support for contentious politics Though protests at museums are understudied they are far from anomalous *Tear Gas Epiphanies* traces the as yet untold story of political action at museums in Canada from the early twentieth century to the present The book looks at how museums do or do not archive protest ephemera examining a range of responses to actions taking place at their thresholds from active encouragement to belligerent dismissal Drawing together extensive primary source research and analysis Robertson questions widespread perceptions of museums strongly arguing for a reconsideration of their role in contemporary society that takes into account political conflict and protest as key ingredients in museum life The sheer number of protest actions Robertson uncovers is compelling Ambitious and wide ranging *Tear Gas Epiphanies* provides a thorough and conscientious survey of key points of intersection between museums and protest a valuable resource for university students and scholars as well as arts professionals working at and with museums

Modern Families Joshua Gamson, 2015-09-10 The kinds of families we see today are different than they were even a decade ago as paths to parenthood have been rejiggered by technology activism and law Gamson brings us extraordinary family creation tales that illuminate this changing world of contemporary kinship He tells a variety of unconventional family creation tales adoption and assisted reproduction gay and straight parents coupled and single and multi parent families set against the social legal and economic contexts in which they were made

Identities, Boundaries and Social Ties Charles Tilly, 2015-11-17 *Identities Boundaries and Social Ties* offers a distinctive coherent account of social processes and individuals connections to their larger social and political worlds It is novel in demonstrating the connections between inequality and de democratization between identities and social inequality and between citizenship and identities The book treats interpersonal transactions as the basic elements of larger social processes Tilly shows how personal interactions compound into identities create and transform social boundaries and accumulate into durable social ties He also shows how individual and group dispositions result from interpersonal transactions Resisting the focus on deliberated individual action the book repeatedly gives attention to incremental effects indirect effects environmental effects feedback mistakes repairs and unanticipated consequences Social life is complicated

But the book shows it becomes comprehensible once you know how to look at it **The Guide to Trauma-Informed and Emotionally Mindful Conflict Practice** Jeremy A. Rinker, 2024-10-15 Restoring social harmony requires both emotion and the difficult embrace of past felt traumas Jeremy A Rinker provides a clarion call for practitioners to bravely explore human emotions and past trauma He interrogates current conflict intervention practice moving past interest based negotiation and needs based conflict resolution and provides a guide for more emotionally mindful and trauma informed conflict intervention work The Guide to Trauma Informed and Emotionally Mindful Conflict Practice addresses the underattended aspects of emotions and foregrounds historical harms in the work of resolving social conflict It critically investigates trauma and human emotions as an underexplored resource in addressing local and entrenched community violence and integrates the theory and practice of trauma informed approaches using cultural framing storytelling resilience and emotional human connection to chart new ways toward peace This refocusing of peace work is critical for not only conflict resolution but also for overcoming the ossification of polarized social identity formations *Research in Social Movements, Conflicts and Change* Patrick G.
