Ja en Neen Met Transistors. Transistors in Logical Circuits. (Translated by Mrs. A. Aird.) With Plates. Johan Philip Korthals ALTES, Mrs. A. Department of Printed Books, 1971 **Subject Index of Modern Books Acquired** British Library, 1961 *Evolvable Systems: From Biology to Hardware* Gianluca Tempesti, Andy Tyrrell, Julian F. Miller, 2010-08-30 Biology has inspired electronics from the very beginning the machines that we now call computers are deeply rooted in biological metaphors Pioneers such as Alan Turing and John von Neumann openly declared their aim of creating artificial machines that could mimic some of the behaviors exhibited by natural organisms Unfortunately technology had not progressed enough to allow them to put their ideas into practice The 1990s saw the introduction of programmable devices both digital FPGAs and analogue FPAs These devices by allowing the functionality and the structure of electronic devices to be easily altered enabled researchers to endow circuits with some of the same versatility exhibited by biological entities and sparked a renaissance in the field of bio inspired electronics with the birth of what is generally known as evolvable hardware Ever since the field has progressed along with the technological improvements and has expanded to take into account many different biological processes from evolution to learning from development to healing Of course the application of these processes to electronic devices is not always straightforward to say the least but rather than being discouraged researchers in the community have shown remarkable ingenuity as demonstrated by the variety of approaches presented at this conference and included in these proceedings **Library of Congress Catalog** Library of Congress, 1970 A cumulative list of works represented by Library of Congress printed cards Library of Congress Catalogs Library of Congress, 1976 Index translationum , 1964 Philosophy Religion Social sciences Law Education Economy Exact and natural sciences Medicine Science and technology Agriculture Management Architecture Art History Sport Biography Literature **Subject Catalog** Library of Congress, 1970 **Brinkman's catalogus van boeken en tijdschriften** , 1981 With 1901 1910 1956 1960 Repertorium is bound Brinkman's Titel catalogus van de gedurende 1901 1910 1956 1960 Title varies slightly *Scientific and Technical Aerospace Reports* , 1992 **A Witness to a Century** Dietrich A.
