

Keeping Healthy Fact Sheet

The Heart is an organ that pumps blood around the body - circulation. Your heart beat is the rhythmic contractions of the muscle.

Nerves are a network of connections between the brain and the body.

Drugs have an effect on the body and can become an addiction. Taking drugs can have side effects on the body, such as tiredness.

Exercise is beneficial and promotes good health. We need energy in order to work, move and grow - we eat food to provide our body with this.

The digestive system - food is chewed into small pieces and then swallowed. In the stomach it is digested into even smaller pieces that will pass through into the blood stream. It is used by the body for energy, growth and repair. What is not used is passed out of the body as waste.

We breathe using our lungs. oxygen is a gas found in the air we need to breathe. Our bodies produce another gas, carbon dioxide, we get rid of this by breathing out.

Keeping Healthy Science Ks2

Scheme of Work for Key Stage 2 This straightforward approach to Science assessment test practice and revision saves you time with your assessment planning and enables you to accurately monitor your pupils level of knowledge Integrates well with the rest of the Primary Science Kit but can also be used independently *Explore Science* Tara Lievesley,2003-04-25 All you need to plan and teach each science lesson Integrating books and software for Reception to Year 6 this innovative programme provides a comprehensive science resource for the primary classroom Each unit is packed with a range of exciting and challenging tasks including investigations practical activities and experiences that bring science to life

Managing Educational Tourism Brent W. Ritchie,Neil Carr,Christopher P. Cooper,2003-01-01 An outline of the main forms of educational tourism discussing their growth and resulting impacts and management issues from a holistic perspective Using case studies the author argues that without adequate research and management the potential impacts and benefits of educational tourism will not be maximized The text highlights the need for collaboration between both the tourism and education industry to manage the growth and issues relevant within educational tourism adequately *Making Sense of Secondary Science* Rosalind Driver,Peter Rushworth,Ann Squires,Valerie Wood-Robinson,2004-03-10 When children begin secondary school they already have knowledge and ideas about many aspects of the natural world from their experiences both in primary classes and outside school This collection of support materials is designed especially for teachers of the early years in secondary school to give guidance both on the ideas which children are likely to bring with them and also on using these ideas to help pupils to make sense of their experiences in science lessons The materials are in 24 sections structured around three themes life and living processes materials and their properties and physical processes Included in each section is a science map identifying key science ideas and also a set of learning guides which give detailed advice on helping children to develop these ideas Written in collaboration with teachers field tested in schools and suitable for use with any published science scheme these materials will be an essential resource for all science teachers who are planning teaching schemes and developing science lessons within the National Curriculum A separate paperback *Making Sense of Secondary Science Research into Children s Ideas* comes with the file and is also available separately This provides a summary of research in the area and a detailed bibliography for those who want to pursue certain aspects further **KS2 Success Workbook Science** Paul Broadbent,2010-10 Presents an approach that has been developed with schoolteachers and students to ensure a finished product able to meet their revision needs for both school and home revision This title includes topics that are arranged into sound bite text boxes for easy recollection contains tips on each page and features a mock SATs exam This title presents a range of clear and accessible KS1 and KS2 English Maths and Science Workbooks to accompany our new style Success Revision Guides The new approach for this range has been developed with schoolteachers and students to ensure a finished product able to exactly meet their revision needs for both school and home revision Each topic covered in the Revision Guide is tested in the Workbooks to give students additional practice and ensure all material is thoroughly understood Topics are

arranged into sound bite text boxes for easy recollection Top tips on each page give further advice and a mock SATs exam at the end of each book prepares and builds confidence in advance of the SATs *Science For Primary School Teachers* Gillespie, Helena, Gillespie, Rob, 2007-12-01 What do I need to know about science to teach children in primary school How can I make my science teaching successful How do children learn to investigate scientifically What are the dos and don'ts of science teaching Written to support teachers who need to boost their science knowledge this book covers science knowledge in sufficient breadth and depth to enable you to teach science effectively up to the end of Key Stage 2 as well as the core teaching and learning issues involved in the investigative process Whether you are a student or a fully qualified teacher the book is designed to help you find what you need quickly The introduction provides a guide to how to use the book including a table which cross references the subject knowledge against the National Curriculum the QCA Scheme of Work and Primary Science Topics This enables you to use the book in different ways depending on your individual requirements To ensure that teachers will be able to teach and respond to questions appropriately the authors take science knowledge beyond what is required for Key Stage 2 This is important as it helps to avoid over simplifying concepts which can then cause misconceptions at Key Stage 3 and beyond It also helps to broaden and develop the primary teacher's own knowledge Science for Primary School Teachers is a core text for teachers in training and in professional development into the induction year and beyond

SAT Attack Science Phipps, Lloyd, Cynthia Y. Young, 2004-12 Meeting the Standards in Primary Science Lynn D. Newton, 2013-04-15 Meeting the Standards in Primary Science provides primary science subject knowledge the pedagogical knowledge needed to teach science in primary schools support activities for work in schools and self study information on professional development for primary teachers This practical comprehensive and accessible book should prove invaluable for students on primary initial teacher training courses PGCE students lecturers on science education programmes and newly qualified primary teachers **Science Fix** Danny Nicholson, 2024-08-30 Many primary school teachers find science a difficult subject to teach Not only do teachers need to develop their own knowledge of a complex subject they also need to know how to bring this subject to life in the primary classroom Science Fix is here to help In this practical book author Danny Nicholson Guides you through all areas of the primary science curriculum Outlines the subject knowledge you need for each area enabling you to teach with confidence Includes practical advice for teaching and guidance on how to plan and deliver sequences of engaging science lessons Outlines activities for teaching that promote scientific thinking and help children to work as scientists Identifies common misconceptions allowing you to anticipate them in planning Asks what working scientifically is and importantly what it is not *Access to Science* Claire Marvin, Chris Stokoe, 2021-12-24 This accessible and practical teaching resource focuses on access to the science curriculum for pupils with learning difficulties Within an inclusive framework of participation and achievement for all the core of the book provides support and ideas for the effective planning and implementation of well differentiated science focused activities The book offers activities that are designed to

motivate and challenge pupils with diverse individual needs guidance on differentiation in early years and across all key stages suggestions for teaching early developmental skills through sensory science defined learning outcomes that demonstrate progression in curriculum content and experience assessment and recording opportunities and guidance on how to incorporate science in a cross curricular way Written by authors who have direct experience in the field this book will provide practical help to all those working with pupils with learning difficulties in early years settings and in mainstream and special schools

Understanding Primary Science Roy Phipps, 2000-07-01 Many primary teachers need help with their personal subject knowledge in science Now that there is a nationally published scheme of work for science in primary schools many teachers also need help in constructing lesson plans in order to cover all of the themes and possible activities in the scheme Designed with those needs in mind this book provides practical help in the form of sample lesson plans together with linked background subject knowledge for each of the science topics in the primary national curriculum Each chapter has sample lesson plans for four different age groups reception years 1 2 years 3 4 and years 5 6

Science 5-11 Alan Howe, Dan Davies, Kendra McMahon, Lee Towler, Christopher Collier, Tonie Scott, 2013-04-15 Bringing together two important strands of qualified teacher status QTS this uniquely organised book presents the development of effective subject knowledge within the context of teaching

Here, There and Everywhere Robin Richardson, 2004 At the heart of this book is an exploration of each subject or curriculum area the general principles notes on practice and opportunities and questions for review and development Students at a rural secondary school set up a Web site in collaboration with students at a multiethnic school some 25 miles away They wanted to explore differences and similarities between their schools and to share reports and reflections about the projects they were doing jointly They called the site Here There and Everywhere after the Beatles song The title also captures the spirit and concerns of this handbook exploring how schools can combat racism and how issues of belonging identity and equality can be here there and everywhere in every school A piece of forum theatre Sticks Stones and Macpherson introduces the book The overarching themes and big ideas that should permeate every curriculum subject and all aspects of the hidden curriculum in the school are discussed The discussions and examples are consistent with but frequently go further than statutory requirements and expectations Training exercises and materials for staff discussion provide guidance on dealing with racist incidents and finally threads from the book are drawn together to support the creation and development of formal school policies The book draws extensively on work developed in Derbyshire It has been compiled and edited for Derbyshire Advisory and Inspection Service by Robin Richardson a director of the Insted consultancy He and Insted colleague Angela Wood are the authors of *The Achievement of British Pakistani Learners*

Science 5-11 Kendra McMahon, Alan Howe, Chris Collier, Sarah Earle, Dan Davies, 2017-07-14 This third edition of the bestselling textbook *Science 5 11* has been fully updated to provide a synthesis of research and best practice in teaching and learning that focuses on successful ways to engage and motivate young scientists Responding to the new curriculum

particularly Working Scientifically this edition now includes New sections on whole school assessment mentoring transitions and a topics based approach Reference to the big ideas of biology chemistry and physics with chapters clearly related to this new subject structure Updated tables of progression in each topic area and reference to cross curricular contexts New self assessment questions for teachers the option for higher level thinking and further reading An updated chapter on subject leadership with an increasing emphasis on monitoring progress Bringing together research undertaken from a range of activities in the field this book forms a comprehensive and clear guide outlining the subject knowledge that a teacher needs the curriculum requirements and the best ways to go about teaching A practical guide ideal for students trainees mentors and other practising teachers the book provides information on appropriate science topics for Key Stage 1 and 2

Keeping Minds Happy and Healthy Pat Guy, 2016-07-15 Keeping Minds Happy and Healthy is a practical resource for teachers and shows how pupils can achieve and maintain excellent mental health It focuses on identifying the main causes of unhappiness stress and anxiety by examining the difficulties a school system can inadvertently create for pupils By developing resilience empathic behaviour social skills and self respect during childhood pupils will be better equipped to withstand the pressures of modern society and growing up With practical tip sheets and advice Keeping Minds Happy and Healthy suggests ways to create a more positive educational experience for all pupils Pat Guy shows how schools can increase all pupils well being enabling them to deal with the challenging situations they face as they move through education and into the adult world
