Louder Than Bombs David Barsamian, 2004 Media activist David Barsamian dubbed the Studs Terkel of our generation by Howard Zinn has been broadcasting voices of dissent from around the world for over a quarter of a century Barsamian's radical weekly radio program Alternative Radio or simply AR to his fans has been a north star in the mass media wilderness for people across the country since 1986 Ralph Nader calls it a ray of light in the media darkness featuring voices of proposals to strengthen our democracy Barsamian's latest volume brings together over 20 interviews culled from The Progressive magazine Here he talks with luminaries of the left activists academics and progressive celebrities about their areas of expertise their hopes for the future and the biggest obstacles facing movements for radical change With his well informed questions and engaging manner Barsamian encourages his subjects to reflect on their lives and the world In turn they open their hearts and minds to him offering nuggets of both personal and political insight Barsamian invites readers to listen in as he converses with some of the best minds of our time and skillfully weaves their analyses and wisdom into a digest of the world's most pressing issues The lively and accessible conversations highlight the urgency of globalizing dissent and remind readers of the power of dialog to inform and inspire While the people interviewed for this book are a diverse group they share a common understanding that political change must be fundamental not cosmetic All of these thinkers have dedicated their lives to organizing for progressive change None has lost faith in the capacity of working and poor people to change society even in the face of the rapidly expanding corporatization of the world Perhaps this is the book's most inspiring message there's still reason enough to hope

Keeping the Rabble in Line Noam Chomsky, David Barsamian, 1994 Barsamian the founder of Alternative Radio and

Chomsky allegedly the most quoted author in the modern era have forged a symbiotic relationship that manages to distill Chomsky's political philosophies and make them accessible. Barsamian's historically grounded, well informed and probing questions prompt Chomsky to deconstruct concepts of class, media and economics. Chomsky deftly addresses domestic and foreign conundrums including health care, the recent crime bill and NAFTA. While these interviews span a two year period and end early in 1994, they remain provocative and timely with Chomsky's insights on Haiti, Northern Ireland and the Middle East proving especially resonant. Ultimately, Rabble serves as a Chomsky primer that is without condescension and the question and answer format shows him at his most concise and adroit. His criticism exposes democracies as business run societies that render the general population isolated from politics, persuasively suggesting that we are on the verge of a social breakdown. What sets this work apart from other reluctant messiahs who simply intellectualize suffering is that Barsamian and Chomsky discuss avenues for activism, strengthening unions, following grassroots organizations or simply reading between the lines. Together they act as a lens enabling the reader to see what has been there hidden in plain sight.
