1850-1930 Y. Ivory,2009-05-07 Why were so many late nineteenth century homosexuals passionate about the Italian Renaissance This book answers that question by showing how the Victorian coupling of criminality with self fashioning under the sign of the Renaissance provided queer intellectuals with an enduring model of ruthlessly permissive individualism

The History of the Christian Church (Complete) Philip Schaff,1886-01-01 As I appear before the public with a new edition of my Church History I feel more than ever the difficulty and responsibility of a task which is well worthy to occupy the whole time and strength of a long life and which carries in it its own rich reward The true historian of Christianity is yet to come But short as I have fallen of my own ideal I have done my best and shall rejoice if my efforts stimulate others to better and more enduring work History should be written from the original sources of friend and foe in the spirit of truth and love sine ira et studio with malice towards none and charity for all in clear fresh vigorous style under the guidance of the twin parables of the mustard seed and leaven as a book of life for instruction correction encouragement as the best exposition and vindication of Christianity The great and good Neander the father of Church History first an Israelite without guile hoping for the Messiah then a Platonist longing for the realization of his ideal of righteousness last a Christian in head and heart made such a history his life work but before reaching the Reformation he was interrupted by sickness and said to his faithful sister Hannchen I am weary let us go home good night And thus he fell gently asleep like a child to awake in the land where all problems of history are solved When after a long interruption caused by a change of professional duties and literary labors I returned to the favorite studies of my youth I felt the necessity before continuing the History to more recent times of subjecting the first volume to a thorough revision in order to bring it up to the present state of investigation We live in a restless and stirring age of discovery criticism and reconstruction During the thirty years which have elapsed since the publication of my separate History of the Apostolic Church there has been an incessant activity in this field not only in Germany the great workshop of critical research but in all other Protestant countries Almost every inch of ground has been disputed and defended with a degree of learning acumen and skill such as were never spent before on the solution of historical problems *Communities of Style* Marian H. Feldman,2014-10-30 Communities of Style examines the production and circulation of portable luxury goods throughout the Levant in the early Iron Age 1200 600 BCE In particular it focuses on how societies in flux came together around the material effects of art and style and their role in collective memory Marian H Feldman brings her dual training as an art historian and an archaeologist to bear on the networks that were essential to the

movement and trade of luxury goods particularly ivories and metal works and how they were also central to community formation The interest in and relationships to these art objects Feldman shows led to wide ranging interactions and transformations both within and between communities Ultimately she argues the production and movement of luxury goods in the period demands a rethinking of our very geo cultural conception of the Levant as well as its influence beyond what have traditionally been thought of as its borders

Albrecht Dürer and the Embodiment of Genius Jeffrey Chipps Smith, 2021-05-28 During the nineteenth century Albrecht Dürer s art piety and personal character were held up as models to inspire contemporary artists and it was hoped to return Germany to international artistic eminence In this book Jeffrey Chipps Smith explores Dürer s complex posthumous reception during the great century of museum building in Europe with a particular focus on the artist s role as a creative and moral exemplar for German artists and museum visitors In an era when museums were emerging as symbols of civic regional and national identity dozens of new national princely and civic museums began to feature portraits of Dürer in their elaborate decorative programs embellishing the facades grand staircases galleries and ceremonial spaces Most of these arose in Germany and Austria though examples can be seen as far away as St Petersburg Stockholm London and New York City Probing the cultural political and educational aspirations and rivalries of these museums and their patrons Smith traces how Dürer was painted sculpted and prominently placed to accommodate the era s diverse needs and aspirations He investigates what these portraits can tell us about the rise of a distinct canon of famous Renaissance and Baroque artists addressing the question of why Dürer was so often paired with Raphael who was considered to embody the greatness of

Italian art and why with the rise of German nationalism Hans Holbein the Younger often replaced Raphael as Dürer's partner
Accessibly written and comprehensive in scope this book sheds new light on museum building in the nineteenth century and
the rise of art history as a discipline It will appeal to specialists in nineteenth century and early modern art the history of
