critique on what is often considered as Bird's most important work. The central focus of the book is a detailed exploration of Bird's journeys and the careful planning that went into them with the support of the British Minister Sir Harry Parkes seen as the prime mover who facilitated her extensive travels through his negotiations with the Japanese authorities. Furthermore, the author dismisses the widely held notion that Bird ventured into the field on her own, revealing instead the crucial part played by Ito, her young servant interpreter, without whose constant presence she would have achieved nothing. Written by Japan's leading scholar on Isabella Bird, the book also addresses the vexed question of the hitherto universally held view that her travels in Japan in 1878 only involved the northern part of Honshu and Hokkaido. This mistaken impression, the author argues, derives from the fact that the abridged editions of *Unbeaten Tracks in Japan* that appeared after the 1880 two-volume original work entirely omit her visit to the Kansai which took in Osaka, Kyoto, Kobe and the Ise Shrines. Bird herself tells us that she wrote her book in the form of letters to her sister Henrietta, but here the author proposes the intriguing theory that these letters were never actually sent. Many well-known figures, Japanese and foreign, are introduced as having influenced Bird's journey indirectly, and this forms a fascinating sub-text.

Real or Fake Joe Nickell, 2009-07-17

The man who is the embodiment of the Mythbusters, Sherlock Holmes and Richard Feynman weeds out the treasures from the shams in artifact investigations. Michael Shermer, founding publisher of *Skeptic* magazine, detailing how the pros determine whether an Abraham Lincoln signature is forged or if a photograph of Emily Dickinson is genuine. Nickell, a leader in forgery detection and forensic investigation, provides the essential tools necessary to identify counterfeits. In this general introduction to the principles of authentication, Nickell provides readers with step-by-step explanations of the science used to detect falsified documents, photographs and other objects, illustrating methods used on hit shows such as *Antiques Roadshow* and *History Detectives*. Including fascinating cases drawn from Nickell's illustrious career, *Real or Fake* combines historical and scientific investigations to reveal reproductions and genuine objects. Nickell explains the warning signs of forgery such as patching and unnatural pen lifts, chronicles the evolution of writing instruments, inks and papers, shows readers how to date photographs, papers and other materials, and traces the development of photographic processes since the mid-nineteenth century. Lavishly illustrated with examples of replicas and authentic objects inspected by Nickell, *Real or Fake* includes case studies of alleged artifacts including Jack the Ripper's diary, a draft of the Gettysburg Address, notes by Charles Dickens, Jefferson Davis's musket and debris from the Titanic. An expert on antique ink and paper and the forensic analysis of historic documents, *The New Yorker*, Nickell advocates a multifaceted approach that looks at provenance, content, material composition and scientific analysis.
