Matthew's Account of the Massacre of the Innocents in Light of its Reception History Sung J. Cho, 2021-10-21
Sung Cho addresses the seeming contradiction of Herod the Great's massacre in Matthew 2:16-18 questioning why such a tragedy had to occur why it was included in the good news of Jesus and what connection it has to ancient prophecies In creating a reception history of the Massacre of the Innocents Cho progresses through two millennia worth of interpretation and depiction to highlight key works for discussion Beginning with a close reading of Matthew 2:16-18 Cho moves to analyse depictions of the tragedy in the Early Patristic Tradition from the sixth century to the early modern period and thus to the present day complete with an examination of visual interpretations of the massacre Cho's examination provides a positive step to understanding the depths of human suffering with the help of many diverse perspectives **El-Hi Textbooks & Serials in Print, 2003**, 2003

Questions and Answers in the English Courtroom (1640-1760) Dawn Archer, 2005-06-22 This book belongs to the rapidly growing field of historical pragmatics More specifically it aims to lend definition to the area of historical sociopragmatics It seeks to enhance our understanding of the language of the historical courtroom by documenting changes to the discursive roles of the most active participant groups of the English courtroom e.g. the judges lawyers witnesses and defendants in the period 1640-1760 Although the primary focus is on questions and answers this book also analyses the use of eliciting and non eliciting devices e.g. requests and commands as a means of demonstrating similarities and differences over time Particular strengths of this work include the study of different types of trial making the results potentially more representative of the courtroom in general and the innovative discourse analytic approach which blends corpus methodology and sociopragmatic analysis thereby enabling the quantitative analysis of functional phenomena *American Book Publishing Record*, 1999 *Jacob Spon* Roland Étienne, Jean-Claude Mossière, 1995

Public Procurement and the EU Competition Rules Albert Sánchez Graells, 2015-06-25 Public procurement and competition law are both important fields of EU law and policy intimately intertwined in the creation of the internal market Hitherto their close connection has been noted but not closely examined This work is the most comprehensive attempt to date to explain the many ways in which these fields often considered independent of one another interact and overlap in the creation of the internal market This process of convergence between competition and public procurement law is particularly apparent in the 2014 Directives on public procurement which consolidate the principle of competition in terms very close to those advanced by the author in the first edition This second edition builds upon this approach and continues to ask how competition law principles inform and condition public procurement rules and whether the latter in their revised form are adequate to ensure that competition is not distorted The second edition also deepens the analysis of the market behaviour of the public buyer from a competition perspective Proceeding through a careful assessment of the general rules of competition and public procurement the book constantly tests the efficacy of these rules against a

standard of the proper functioning of undistorted competition in the market for public procurement It also traces the increasing relevance of competition considerations in the case law of the Court of Justice of the European Union and sets out criteria and recommendations to continue influencing the development of EU Economic Law Electrochemistry. the importance of intangible assets are still valid As such it is much more appropriate today to discuss issues related to IC as images of intellectual capital rather than rules Intellectual capital explains a plethora of phenomena in today s business organisations and this book takes a post modern approach to the issue of IC and offers a selection of different perspectives They include analyses of intellectual capital in education business and in the public sector The chapters collected here are authored by university professors business practitioners and students and investigate such issues as the relative importance of intellectual capital components to tangible components of a company s value the impact of ICT on IC the measurement methods for IC and different forms of communication for the disclosure of IC **Popular Educator** ,1922 Urban
