Of Derrida, Heidegger, and Spirit David Wood, 1993 Jacques Derrida's *De l'esprit Heidegger et la question* is one of his most interesting and accessible later works In it Derrida attempts to come to terms with Heidegger's Nazi connections by way of an extended reflection on Heidegger's use of the term Geist In *Of Derrida Heidegger and Spirit* David Wood presents a variety of powerful and distinctive responses to Derrida's book

Heidegger Jacques Derrida, 2016-06-16 Few philosophers held greater fascination for Jacques Derrida than Martin Heidegger and in this book we get an extended look at Derrida's first real encounters with him Delivered over nine sessions in 1964 and 1965 at the cole Normale Sup rieure these lectures offer a glimpse of the young Derrida first coming to terms with the German philosopher and his magnum opus *Being and Time* They provide not only crucial insight into the gestation of some of Derrida's primary conceptual concerns indeed it is here that he first uses with some hesitation the word deconstruction but an

analysis of Being and Time that is of extraordinary value to readers of Heidegger or anyone interested in modern philosophy. Derrida performs an almost surgical reading of the notoriously difficult text, marrying pedagogical clarity with patient rigor and acting as a lucid guide through the thickets of Heidegger's prose. At this time in intellectual history, Heidegger was still somewhat unfamiliar to French readers and Being and Time had only been partially translated into French. Here Derrida mostly uses his own translations, giving his own reading of Heidegger that directly challenges the French existential reception initiated earlier by Sartre. He focuses especially on Heidegger's *Destruktion*, which Derrida would translate both into solicitation and deconstruction of the history of ontology and indeed of ontology as such, concentrating on passages that call for a rethinking of the place of history in the question of being and developing a radical account of the place of metaphoricity in Heidegger's thinking. This is a rare window onto Derrida's formative years, and in it we can already see the philosopher we've come to recognize, one characterized by a bravura of exegesis and an inventiveness of thought that are particularly and singularly his.

The Spirit and the Letter Paul S. Fiddes, Günter Bader, 2013-08-01 Paul's statement that "the letter kills but the spirit gives life" (2 Corinthians 3:6) has had an extraordinary impact on Christian thought through the ages. It has been read both as affirming the saving power of the new covenant in comparison to the old and as a key to hidden spiritual meanings in the text of scripture. It is, however, an ambiguous phrase followed by a tangled story. This book explores the Pauline distinction both in its original context and in its aftermath in the early church, the Reformation, and modern Biblical Studies. It then considers a postmodern reversal where ideas of Spirit are often seen as deadly and the openness of the letter or text as life-affirming and draws conclusions for Spirit in the world.

Understanding Derrida, Understanding Modernism Jean-Michel Rabaté, 2019-05-30 This volume makes a significant contribution to both the study of Derrida and of modernist studies. The contributors argue first that deconstruction is not modern, neither is it postmodern, nor simply modernist. They also posit that deconstruction is intimately connected with literature, not because deconstruction would be a literary way of doing philosophy, but because literature stands out as a modern notion. The contributors investigate the nature and depth of Derrida's affinities with writers such as Joyce, Kafka, Antonin Artaud, Georges Bataille, Paul Celan, Maurice Blanchot, Theodor Adorno, Samuel Beckett, and Walter Benjamin, among others. With its strong connection between philosophy and literary modernism, this highly original volume advances modernist literary study and the relationship of literature and philosophy.

The Darkening Spirit David Tacey, 2013-06-26 The twenty-first century could well be Jung's century, just as the twentieth century was Freud's. Jung predicted the demise of secular humanism and claimed we would search for alternatives to science, atheism, and reason. We would experience a new and even unfashionable appetite for the sacred. Educated people, however, would not return to unreconstructed religions because these do not express the life of the spirit as discerned by modern consciousness. The sacred has developed a darker hue and worshipping symbols of light and goodness no longer satisfies the longings of the soul. The new sacred cannot be contained by the formulas of the past, but

nor can we live without a sense of the sacred We stand in a difficult place between traditional religions we have outgrown and a pervasive materialism we can no longer embrace These changes in our culture have come sooner than Jung might have imagined In his time Jung struck many as eccentric or unscientific But his works speak to our time since we have experienced the full gamut of Jungian transformations the unsettlement of Judeo Christian culture the rise of the feminine the onslaught of the dark side the critique of modernism and positivism and the recognition that the Western ego is neither the pinnacle of evolution nor the lord of creation A new life is needed beyond the ego but we do not yet know what it will look like The outbreak of strong religion and terrorism are signs of the times but these are expressions of a distorted and repressed spirit and not one hopes genuine pointers to the future What the future holds is uncertain but Jung s prophetic vision helps to prepare us for what is to come and this will be of great interest to analytical psychologists and psychoanalysts as well as to theologians futurists sociologists and the general reader

The Architecture of Deconstruction Mark Wigley,1993 By locating the architecture already hidden within deconstructive discourse Wigley opens up more radical possibilities for both architecture and deconstruction *Judaism, Philosophy, and Psychoanalysis in Heidegger's Ontology* Federico Dal Bo,2023-11-17 In this book Federico Dal Bo analyzes the question of Heidegger s anti-Semitism from a deconstructive point of view appealing not only to philosophy but also to psychoanalysis gender studies and critical studies Deconstruction famously discourages simplistic oppositions whilst encouraging a more careful analysis of cultural and philosophical complexities of a semantic field In the present case a deconstructive analysis of Heidegger s anti-Semitism rejects both a stern condemnation of his oeuvre and a simplistic acquittal from this infamous accusation It rather suggests that the question of his anti-Semitism shall be examined from the broader perspective from the end of metaphysics

Margins of Religion John Llewelyn,2008-12-17 Pursuing Jacques Derrida s reflections on the possibility of religion without religion John Llewelyn makes room for a sense of the religious that does not depend on the religions or traditional notions of God or gods Beginning with Derrida s statement that it was Kierkegaard to whom he remained most faithful Llewelyn reads Kant Hegel Nietzsche Feuerbach Heidegger Sartre Levinas Deleuze Marion as well as Kierkegaard and Derrida in original and compelling ways Llewelyn puts religiousness in vital touch with the struggles of the human condition finding religious space in the margins between the secular and the religions transcendence and immanence faith and knowledge affirmation and despair lucidity and madness This provocative and philosophically rich account shows why and where the religious matters

Derrida and Religion Yvonne Sherwood, Kevin Hart,2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informal company **Before the Law** Cary Wolfe,2024-05-31 Animal studies and biopolitics are two of the most dynamic areas of interdisciplinary scholarship but until now they have had little to say to each other Bringing these two emergent areas of thought into direct conversation in *Before the Law* Cary Wolfe fosters a new discussion about the status of nonhuman animals and the shared plight of humans and animals under biopolitics Wolfe argues that the human animal distinction must

be supplemented with the central distinction of biopolitics the difference between those animals that are members of a community and those that are deemed killable but not murderable From this understanding we can begin to make sense of the fact that this distinction prevails within both the human and animal domains and address such difficult issues as why we afford some animals unprecedented levels of care and recognition while subjecting others to unparalleled forms of brutality and exploitation Engaging with many major figures in biopolitical thought from Heidegger Arendt and Foucault to Agamben Esposito and Derrida Wolfe explores how biopolitics can help us understand both the ethical and political dimensions of the current questions surrounding the rights of animals

The Memorial Ethics of Libeskind's Berlin Jewish Museum

Arleen Ionescu, 2017-02-20 This book is a detailed critical study of Libeskind's Berlin Jewish Museum in its historical architectural and philosophical context Emphasizing how the Holocaust changed our perception of history memory witnessing and representation it develops the notion of memorial ethics to explore the Museum's difference from more conventional post World War Two commemorative sites The main focus is on the Museum as an experience of the materiality of trauma which engages the visitor in a performative duty to remember Arleen Ionescu builds on Levinas's idea of ethics as optics to show how Libeskind's Museum becomes a testimony to the unrepresentable Other Ionescu also extends the Museum's experiential dimension by proposing her own subjective walk through Libeskind's space reimagined as a literary museum Featuring reflections on texts by Beckett Celan Derrida Kafka Blanchot Wiesel and Selma Meerbaum Eisinger Celan's cousin this virtual tour concludes with a brief account of Libeskind's analogous healing project for Ground Zero

Mobile Modernity Todd S Presner, 2007-04-19 Though the history of the German railway system is often associated with the transportation of Jews to labor and death camps Todd Presner looks instead to the completion of the first German railway lines and their role in remapping the cultural geography and intellectual history of Germany's Jews Treating the German railway as both an iconic symbol of modernity and a crucial social technological and political force Presner advances a groundbreaking interpretation of the ways in which mobility is inextricably linked to German and Jewish visions of modernity Moving beyond the tired model of a failed German Jewish dialogue Presner emphasizes the mutual entanglement of the very categories of German and Jewish and the many sites of contact and exchange that occurred between German and Jewish thinkers Turning to philosophy literature and the history of technology and drawing on transnational cultural and diaspora studies Presner charts the influence of increased mobility on interactions between Germans and Jews He considers such major figures as Kafka Heidegger Arendt Freud Sebald Hegel and Heine reading poetry next to philosophy architecture next to literature and railway maps next to cultural history Rather than a conventional linear history that culminates in the tragedy of the Holocaust Presner produces a cultural mapping that articulates a much more complex story of the hopes and catastrophes of mobile modernity By focusing on the spaces of encounter emblematically represented by the overdetermined triangulation of Germans Jews and trains he introduces a new genealogy for the study of European and German Jewish

modernity The Emergence of Post-modernity at the Intersection of Liberalism, Capitalism, and Secularism Matthew McManus, 2022-09-07 This book is a systematic and thorough analysis of what post modernity is and how it emerged It distinguishes between those who regard post modernity as a theoretical approach and those who regard it as a culture and argues that interpreting post modernity as a culture is more fruitful It discusses the three factors which led to its emergence namely liberalism capitalism and secularism highlighting their respective influence in generating the culture of post modernity within neoliberal societies The volume provides a lengthy analysis of neoliberal post modernity in practice arguing that post modernism is the cultural condition of neoliberal societies in the late 20th and early 21st centuries Until recently it seemed that neoliberal post modernity was here to stay framed by relationship to freedom and time which stressed individual agency but precluded the possibility of historical change at the political level However the Great Recession of 2008 opened new spaces for agitation and transformation which has resulted in the discordant politics of the last decade This book will be of interest to scholars working in a number of fields including economic policy cultural analysis political theory and social critique
