Les services communautaires de santé animale Andy Catley, Stephen Blakeway, Tim Leyland, 2004 Depuis de nombreuses années, les approches dites communautaires visant améliorer la santé animale ont connu une évolution constante. Cependant, on dispose de peu de publications en la matière pouvant servir de guide aux professionnels de la santé animale qui doivent fournir des services vitaux de base en milieu rural. Ce livre constitue un guide qui indique comment y arriver et qui aborde tous les aspects du travail en santé animale communautaire. Il est avant tout conçu pour un emploi au niveau du terrain mais peut tout aussi bien servir aux décideurs politiques qu'aux instituts de formation vétérinaire grâce à sa présentation bien claire des théories essentielles relatives aux services communautaires d'une part, ainsi que des rouages nécessaires au bon fonctionnement de ces services d'autre part. Ce livre s'inspire des expériences de projets en santé animale communautaire mis en œuvre par des organisations gouvernementales et non-gouvernementales pendant les vingt dernières années. Il fournit des directives pratiques au niveau de la conception et de la gestion des services. Il traite non seulement de la formation des auxiliaires d'levage mais aussi intéresse également l'environnement dans lequel ces travailleurs doivent fonctionner, ainsi qu'aux facteurs qui favorisent la durabilité des services. Ce guide indispensable comprend le détail des méthodes participatives utilisées au cours des différentes étapes d'un projet, clairement précisées dans le texte et illustrées par des encadrés explicatifs contenant des informations essentielles, ainsi que des études de cas des conseils pratiques inestimables qui sont basés sur l'expérience de terrain, des photos issues des quatre coins du plan et des illustrations bien claires, une longue liste de sources et d'informations complémentaires comprenant des publications d'autres organisations et des sites web.
