 Dickens, 2014-09-12 It is increasingly implausible to speak of a purely domestic abortion law as the legal debates around the
 world draw on precedents and influences of different national and regional contexts While the United States and Western
 Europe may have been the vanguard of abortion law reform in the latter half of the twentieth century Central and South
 America are proving to be laboratories of thought and innovation in the twenty first century as are particular countries in
 Africa and Asia Abortion Law in Transnational Perspective offers a fresh look at significant transnational legal developments
 in recent years examining key judicial decisions constitutional texts and regulatory reforms of abortion law in order to
 envision ways ahead The chapters investigate issues of access rights and justice as well as social constructions of women
 sexuality and pregnancy through different legal procedures and regimes They address the promises and risks of using legal
 procedure to achieve reproductive justice from different national regional and international vantage points how public and
 courtroom debates are framed within medical religious and human rights arguments the meaning of different narratives that
 recur in abortion litigation and language and how respect for women and prenatal life is expressed in various legal regimes
 By exploring how legal actors advocate regulate and adjudicate the issue of abortion this timely volume seeks to build on
 existing developments to bring about change of a larger order Contributors Luis Roberto Barroso Paola Bergallo Rebecca J
