Dogs are **mammals**. They are warm-blooded, which means they maintain a constant body temperature. They are covered with skin and fur. Mother dogs give birth to live young called puppies. They feed their young with milk.

What do they look like?

Dogs have a sharp sense of smell. They use their nose to recognize people, find food, and locate items. They can help policemen by **sniffing** out **illegal** items such as bombs and drugs.

Dogs may have pointed or **floppy** ears. They have sensitive hearing that enables them to hear very soft sounds. They do not have to turn their heads in order to hear something. Their ears can point in different directions so they can hear distant sounds.
