their impact on social cohesion entryism and women s rights The key protagonists of non violent Islamist extremism allegedly include groups and individuals associated with the Muslim Brotherhood and Jama at i Islami They have been described as part of the global Muslim Brotherhood but do they constitute a singular phenomenon a social movement This book shows that such groups and individuals do indeed comprise a movement in Britain one dedicated to an Islamic revival It shows how they are networked organisationally bonded through ideological and cultural kinship and united in a conflict of values with the British society and state Using original interviews with prominent revivalist leaders as well as primary sources the book also shows how the movement is not so much Islamist in aspiring for an Islamic state but concerned with institutionalising an Islamic worldview and moral framework throughout society The conflict between the Government and the global Muslim Brotherhood is apparent in a number of different fields including education governance law and counterterrorism But this does not simply concern the direction of Government policy or the control of state institutions It most fundamentally concerns the symbolic authority to legitimise a way of seeing thinking and living By assessing this multifaceted conflict the book presents an exhaustive and up to date analysis of the political and cultural fault lines between Islamic revivalists and the British authorities It will be useful for anyone studying Islam in the West government counter terrorism and counter extremism policy multiculturalism and social cohesion
