Guide To Technical Architecture:

Guide to Enterprise IT Architecture Col Perks, Tony Beveridge, 2007-06-02 of the Architecture Forum and to the evolution of TOGAF to ensure that others make a fair contribution in return So much for legal necessities I turn now to the additional information and resources that I hope the reader will find of interest The Development of TOGAF TOGAF has come a long way since its inception in 1994 at the instigation of The Open Group's User Council as it then was representatives of the computer user community among The Open Group membership The original motivations for TOGAF were very much as Tony and Col have expounded so eloquently in the early chapters of this book The original development of TOGAF was based on the Technical Architecture Framework for Information Management TAFIM developed by the U S Department of Defense The DoD gave The Open Group public permission and encouragement to create TOGAF by building on the TAFIM which itself represented hundreds of person years of development effort and millions of dollars of U S government investment Starting from this sound foundation the members of The Open Group's Architecture Forum have developed successive versions of TOGAF over the years and published them on The Open Group's public Web site TOGAF Related Resources The Open Group's Architecture Forum portal at <http://www.opengroup.org/architecture> provides a way in to the information sources scribed in the remainder of this Foreword The TOGAF documentation can be viewed freely online at <http://www.opengroup.org/public/arch>

Guide to Enterprise IT Architecture Col Perks, Tony Beveridge, 2007-06-02 An up to date and comprehensive overview of information and database systems design and implementation The book provides an accessible presentation and explanation of technical architecture for systems complying with TOGAF standards the accepted international framework Covering nearly the full spectrum of architectural concern the authors also illustrate and concretize the notion of traceability from business goals strategy through to technical architecture providing the reader with a holistic and commanding view The work has two mutually supportive foci First information technology technical architecture the in depth illustrative and contemporary treatment of which comprises the core and majority of the book and secondly a strategic and business context

The Concept of Enterprise Architecture from Theory to Practice Tiko Iyamu,2023-12-06

Even though the field of enterprise architecture EA has matured many organisations still struggle with its development and implementation particularly those organisations involved in continuous transformational cycles and subjected to different environmental trends This book is intended to assist organisations in getting a grip on the factors influencing EA implementation and gaining a deeper understanding of why things happen the way they do in the practice of EA It is a comprehensive and definitive resource that is useful to both business professionals and academics The book presents an approach for the development implementation or institutionalisation of EA that is independent of any method or other architecture frameworks It can be applied directly using a realistic selection of organizational variables The approach has two distinctive features that support EA even in complex environments From both technical and non technical perspectives it identifies influencing factors and how they manifest in the practice of EA in an organization It offers linear and practical mechanisms for developing and implementing EA to fortify the practice of the concept in an organisation This approach represents a significant contribution to EA Starting with descriptions for EA the book offers deepened models and frameworks for the development and implementation of EA at the domain level It also covers factors upon which a model is built for the institutionalisation of the concept Additionally the book discusses the implications of EA for sponsors architects and other stakeholders responsible for EA development implementation and institutionalisation
