Narrow Gauge in the Ypres Sector Martin J B Farebrother,Joan S Farebrother,2024-06-06 The Ypres sector of the Western Front was held predominantly by the British and Dominions Armies from 1914 to 1918 The Ypres Salient at the centre of this sector was one of the most intensively fought over single locations of the First World War By the end of 1917 the sector was full of railways dumps camps and other facilities Much was lost in the German advance in April 1918 but from September 1918 the German Army was driven eastwards until the Armistice Although Ypres and most of the forward areas are in Belgium much of the support area is in northern France In this book the meter gauge networks of both countries established before the First World War are examined with their uses and extensions during the War The build up of light 60cm gauge railways from 1916 to 1918 is described with an assessment of the contribution of both narrow gauges to the war effort After the war the light railways in this sector were generally used only for short term clearing up and salvage The meter gauge railways in Belgium were rebuilt or repaired Those in France had been less affected The story is followed to the closure of the last of these railways This book is a companion volume to those on the Arras Sector 2015 and the Somme Sector 2018 It refers to other previous works on British French and Belgian railways especially during the First World War but contains sufficient information to stand alone

Paris and the River Seine Hunt Janin,Nicole Sheehan,2024-04-10 The intertwined histories of Paris and of the River Seine are interesting but complicated It is the Seine however with all its ports bridges boats commerce monuments and vistas that has always been the keystone in the arch of Paris life both in the past and now in the present The great French medievalist Jean Favier 1932 2014 summed up its story in just six words Paris is born of the Seine Paris may be known today as The City of Light but like most big cities it also has a sordid side This book introduces to the reader not only the rich and the famous of Paris but also some of the unknown people of the Seine These latter include traders police officers millers fishermen charlatans monkey handlers jugglers water carriers and the homeless men searching through the cold mud of the Seine trying to find a small gold ornament of some kind lost by a rich traveler passing by in a boat

French Global Christie McDonald,Susan Suleiman,2010-10-25 Recasting French literary history in terms of the cultures and peoples that interacted within and outside of France s national boundaries this volume offers a new way of looking at the history of a national literature along with a truly global and contemporary understanding of language literature and culture The relationship between France s national territory and other regions of the world where French is

spoken and written most of them former colonies has long been central to discussions of Francophonie Boldly expanding such discussions to the whole range of French literature the essays in this volume explore spaces mobilities and multiplicities from the Middle Ages to today They rethink literary history not in terms of national boundaries as traditional literary histories have done but in terms of a global paradigm that emphasizes border crossings and encounters with others Contributors offer new ways of reading canonical texts and considering other texts that are not part of the traditional canon By emphasizing diverse conceptions of language text space and nation these essays establish a model approach that remains sensitive to the specificities of time and place and to the theoretical concerns informing the study of national literatures in the twenty first century
