

Guided Reading Activity

The Vietnam War, 1954–1975

Lesson 2 Vietnam Divides the Nation

Review Questions: Outlining

DIRECTIONS: Read the lesson and complete the outline below. Refer to your textbook to fill in the blanks.

I. The Antiwar Movement Emerges

- A. As the Vietnam War dragged on, support waned because many believed that the Johnson administration was not telling the truth about the war.
- B. Many Americans believed a credibility gap existed because of inconsistencies between what was shown by media and what the administration said about the war.
- C. Students and teachers at universities held teach-ins to explain why they opposed the war, while many protesters focused on what they thought was an unfair draft system. Most of the soldiers were working-class and minority youths.
- D. As the war went on, many young men burned their draft cards while an estimated 500,000 refused to go.

Many soldiers argued that if they were old enough to fight, they were old enough to

vote. The 26th amendment gave 18-year-olds the

- a. right to vote in federal and state elections supported the war and those who opposed the war.

B. 1968: The Peace Year

- A. Senator Eugene McCarthy opposed the war and South Vietnamese lost the Tet Offensive. This attack, called the Tet Offensive, was reported. Americans, however, were alarmed that an enemy nearly defeated could launch such a large-scale attack.

On March 25, 1968, Johnson declared the nation with the announcement that

he would not seek reelection.

His announcement ended the nation's MLK Jr. and

Barry Kennedy who appeared to be in the lead for the Democratic Party nomination for president.

- B. In the presidential election of 1968, Republican candidate Richard Nixon became the president because he promised to bring peace and order to the country.

Because of Winn-Dixie Comprehension Assessment Tracy Pearce, 2014-10-01 These assessment questions for Because of Winn Dixie are modeled after current testing models requiring students to revisit the text for answers Students have to support their opinions and inferences with examples from the text

Motivating Students to Learn Jere E. Brophy, 2004 Written specifically for teachers this book offers a wealth of research based principles for motivating students to learn within the realities of a classroom learning community Its focus on motivational principles rather than motivational theorists or theories leads naturally into discussions of specific classroom strategies Throughout the book the author focuses on and expertly synthesizes that portion of the motivational literature that is most relevant to teachers Key features of this expanded new edition include Focus on School and Classroom Realities The selection and treatment of

motivational principles and strategies is constantly tied to the realities of schools e g curriculum goals and classrooms e g student differences classroom dynamics Integrates Intrinsic and Extrinsic Principles The author employs an eclectic approach to motivation that shows how to effectively integrate the use of intrinsic and extrinsic strategies Covers Expectancy and Value Related Topics Full coverage is given to both the expectancy aspects of motivation attributions efficacy perceptions expectations confidence etc and to value related topics relevance meaningfulness application potential and to their associated teacher student dynamics New Chapters Two theories that have spurred much education related motivational research in recent years self determination theory and achievement goal theory have been given their own chapters Focus on Individual Differences and Problem Learners Guidelines are provided for adapting motivational principles to group and individual student differences and for doing repair work with students who have become discouraged or disaffected learners Expanded Topical Coverage Expanded coverage has been given to several emerging topics including self identity concepts cross cultural comparisons situational interest stereotype threat and the rediscovery of John Dewey s motivational ideas Improved Pedagogy Chapter and section introductions and summaries provide an unusual degree of continuity across the book and its second person writing style is more reader friendly than most textbooks New to this edition are reflection questions at the end of each chapter This book is appropriate for any course in the undergraduate or graduate teacher education curriculum that is devoted wholly or partly to the study of student motivation
