Across 43 chapters drawn from a wide range of geographic and disciplinary perspectives this comprehensive volume offers a critical and empirically informed examination of the contemporary cultural industries. A range of cultural industries are explored from videogames to art galleries all the time focussing on the culture that is being produced and its wider symbolic and socio-cultural meaning. Individual chapters consider their industrial structure, the policy that governs them, their geography, the labour that produces them and the meaning they offer to consumers and participants. The collection also explores the historical dimension of cultural industry debates providing context for new readers as well as critical orientation for those more familiar with the subject. Questions of industry structure, labour, place, international development, consumption and regulation are all explored in terms of their historical trajectory and potential future direction. By assessing the current challenges facing the cultural industries this collection of contemporary scholarship provides students and researchers with an essential guide to key ideas, issues, concepts and debates in the field. *Arts, Entrepreneurship, and Innovation* Joanna Woronkiewicz, 2022-10-17 This book is the third publication out of the Arts Entrepreneurship and Innovation AEI Lab that focuses exclusively on research that empirically investigates crossovers between arts entrepreneurship and innovation.
