observations the author states that immigrants in many cities face similar social issues and find similar resolutions to them Though there are many negative aspects to urban areas readers will see some positive features of cities that can contribute to effective evangelism The book highlights three main points 1 Ethnic urban dwellers evolve into many more diverse ways than commonly thought 2 Ethnic groups are actively choosing the future of their community types 3 Modern cities create many new communication channels interethnically and also across social strata within ethnicities

Brexit, President Trump, and the Changing Geopolitics of Eastern Europe Theodor Tudoroiu, 2018-04-05 This book analyzes the combined consequences of Brexit and of the new US foreign policy under President Trump on the geopolitical situation of Eastern Europe It perceives the evolution of the East European regional security complex as a struggle between the European Union's Kantian win-win geopolitical vision and Russia's neoclassical geopolitics also promoted by President Trump In the most probable scenario the latter approach will have the upper hand The EU's post-Brexit control by the Franco-German axis will likely be followed by the geopolitical irrelevance of the EU due to the renationalization of member states foreign policy with Germany becoming the main West European actor Consequently Eastern Europe will be turned into the arena of a mainly three-cornered neoclassical geopolitics rivalry opposing Russia the Franco-German axis and then Germany and the US in alliance with the post-Brexit UK and certain East European states The book will appeal to scholars across the fields of International Relations Geopolitics European Studies and Area Studies
