Henry Moore: Unpublished Drawings Henry Moore, David Mitchinson, 1972 N the work of every great artist there is an area that his public seldom sees the notes jottings and drawings that contain his finished creations in embryo These preparatory works are of the utmost importance to the study of art history since they are often the key to the evolution of a work of art indicating how a particular artists vision is translated from germinal idea to final form In the case of Henry Moore one of the great sculptors of our time the discovery of more than 200 of his hitherto unpublished drawings is an exciting event not only for its historical significance but for the aesthetic joy the drawings evoke Many of the sketches taken from comprehensive notebooks and sketchbooks dating from 1921 to 1970 will delight the viewer with their independence as finished graphic statements for Moore experimented extensively with ink pencil crayon chalk wash and watercolor alone and in innovative combinations But it is ultimately Moores purpose for these drawings that both fascinates and overwhelms us here are the worksheets of his artistic vision the raw material from which evolved the Mother and Child sculptures the Reclining Figures and the Family Groups Wherever possible the sculptors written notations to the sketches have been included since they afford a still deeper understanding of Moores intense involvement with his subjects David Mitchinsons text adds a historical framework for the drawings relating them to trends in Moores art and to specific finished sculptures thus extending the exploration of Moores creative process so provocatively invited by the drawings themselves

The Socially Just School John Smyth, Barry Down, Peter McInerney, 2014-07-08 This book explores schools and how they can function as social institutions that advance the interests and life chances of all young people especially those who are already the most marginalized and at an educational disadvantage Social justice is a key theme as the book examines the needs of youth the concept of school culture school community relations socially critical pedagogy curriculum and leadership and a socially critical approach to work The Socially Just School is based upon four decades of intensive writing and researching of young lives This work presents an alternative to the damaging school reform in which schools are made to serve the interests of the economy education systems the military corporate or national interests Readers will discover the hallmarks of socially just schools They educationally engage young people regardless of class race family or neighbourhood location and they engage them around their own educational aspirations They regard all young people as being morally entitled to a rewarding and satisfying experience of school not only those whose backgrounds happen to fit with the values of schools They treat young people as having strengths and being at promise rather than being at risk and with deficits or as bundles of pathologies to be remedied or fixed They are active listeners to the lives and cultures of their students and communities and they construct learning experiences that are embedded in young lives This highly readable book will appeal to students and scholars in education and sociology as well as to teachers and school administrators with an
