Handbook Of Youth And Justice The Plenum Series In Crime And Justice:

Handbook of Youth and Justice Susan O. White, 2013-11-11 When approached by Plenum to put together a volume of social science research on the topic of youth and justice I found the interdisciplinary challenge of such a project intriguing Having spent 2 years as Director of the Law and Social Science Program at the National Science Foundation I was well aware of the rich diversity of research that could fit within that topic I also knew that excellent research on youth and justice was coming from different communities of researchers who often were isolated from each other in their respective disciplines as psychologists sociologists criminologists or policy analysts I saw this project as an opportunity to break down some of this isolation by introducing these researchers and their work to each other and to the broader community of social scientists interested in law and justice There was another gap or set of gaps to be bridged as well The juvenile justice system and the criminal justice system differ in significant ways and the civil justice system which is a major venue for issues of youth and justice is yet another separate world Few researchers are likely to know the whole picture For example a focus on juvenile justice often ignores the extent to which civil justice proceedings shape the lives of young people through divorce custody adoption family preservation policies and other actions and vice versa Youth, Crime, and Justice Clayton A Hartjen, 2008-03-25 Close to half of the world's population is below the age of criminal jurisdiction in most countries Many of these young people are living in poverty and under totalitarian regimes Given their deprived and often abject circumstances it is not surprising that many of them become involved in crime In *Youth Crime and Justice* Clayton A Hartjen provides a broad overview of juvenile delinquency how it manifests itself around the world and how societies respond to misconduct among their children Taking a global rather than country specific approach chapters focus on topics that range from juvenile laws and the correction of child offenders to the abuse exploitation and victimization of young people Hartjen includes specific examples from the United States Australia Spain Switzerland New Zealand Japan India Egypt and elsewhere as he sorts through the various definitions of delinquent and explores the differences in behavior that contribute to these classifications Most importantly his in depth and comparative look at judicial systems worldwide raises questions about how young offenders should be corrected and how much fault can be laid on misbehaving youths acting out against the very societies that produced them *Justice of the Peace*, 2003 *Youth Justice and Child Protection* Malcolm Hill, Andrew Lockyer, Frederick H. Stone, 2007 This book is an examination of recent developments in the areas of youth justice and child protection It investigates how well young people and the societies in which they live are served by judicial and service systems Consideration is given to those in care in young offenders institutions foster families and residential homes as well as those living with their families A broad range of international experts discuss the largely segregated youth justice and children's legal and service systems in England and Wales other parts of Western Europe and the US and compare these with Scotland's integrated system The implications of these arrangements are considered for the rights of children and parents on

the one hand and society on the other The contributors also provide insights into the rationale for current and proposed policies as well as the efficacy of different systems This book will be an important reference for policy makers social workers lawyers magistrates and equivalent decision makers health professionals carers and all those working in youth justice and child protection It is highly relevant for academics and students interested in children citizenship youth crime child welfare and state family relations
