Information Systems And E Business Technologies Information Systems And E Business Technologies:

Information Systems and e-Business Technologies Roland Kaschek, Christian Kop, Claudia Steinberger, Günther Fliedl, 2008-04-19 This book constitutes the refereed proceedings of UNISCON 2008 held in Klagenfurt Austria during April 22-25, 2008. UNISCON combines the ECOMO workshop series and the ISTA conference series. The 19 papers dealing with conceptual modeling, model-driven software development and information systems applications represent a 30% selection from the original set of submissions. They are completed by two keynote lectures and 35 papers from internationally renowned researchers invited in honor of Heinrich C. Mayr whose 60th birthday is also celebrated at this event that he originally created. Impact of E-Business Technologies on Public and Private Organizations: Industry Comparisons and Perspectives Bak, Ozlem, Stair, Nola, 2011-03-31 This book assesses the impact of e-business technologies on different organizations which include higher education institutions, multinational automotive corporations and health providers. Provided by publisher. Technology, Innovation, and Enterprise Transformation Wadhwa, Manish, Harper, Alan, 2014-09-30 Technical advancements are an important part of modern society but particularly important in the business world. The success or failure of business operations can be affected by the technical operations working within it. Technology, Innovation and Enterprise Transformation addresses the crucial relationship between a business and its technical implementations and how current innovations are changing how the industry operates. Highlighting current theoretical frameworks, novel empirical research discoveries and fundamental literature surveys, this book is an essential reference source for academicians, professionals and researchers who are interested in the latest technical insights within the business field. Database Technologies: Concepts, Methodologies, Tools, and Applications Erickson, John, 2009-02-28 This reference expands the field of database technologies through four volumes of in-depth advanced research articles from nearly 300 of the world's leading professionals.
