engineering of the Lambretta introducing for the first time a monocoque frame clearly inspired by its direct rival Piaggio's Vespa. This led to the birth of the Junior series with models aimed at younger riders and with lower list prices than the traditional LI and TV versions. This new book devotes specific chapters to questions of production technology, advertising and many other areas of interest regarding this series of models that once again enjoyed notable success with the public.

Lambretta TV/LI Scooterlinea Vittorio Tessler, 2020-01-07 A book dedicated to a true milestone in the history of the Innocenti scooter. Scooterlinea 1962, a thoroughly revised Lambretta that was a protagonist on the worldwide scooter scene of the Sixties. Technically known as the Series III, the new Lambretta was launched late in 1961 initially with the two 125 and 150 cc displacements, later joined by the 175 TV in the spring of 1962. The third title in the series dedicated to the most important Lambrettas, which include the Lambretta Lui and the Lambretta TV LI. Series I celebrates a model characterised by sleek and aggressive bodywork and equipped with a front disc brake and an extremely high level of fittings and finish. Written by Vittorio Tessler, the leading Lambretta historian, the book reviews the complete industrial, technical and social history of the Scooterlinea, drawing on hundreds of previously unpublished contemporary photos in black and white and colour. The Scooter Bible Eric Dregni, 2022-05-24 The Scooter Bible is an entertaining and authoritative photographic history of the little motorbikes that could, beginning with the first scooter in 1902 and continuing right through to modern electric scooters.

Lambretta TV/LI: Prima Serie - Series 1 Vittorio Tessler, 2019-01-08 Following the monograph devoted to the Lui, this latest volume focuses on another iconic Lambretta, the TV LI Series I. In the history of the Lambretta, the TV and LI Series I laid the foundations of a new engineering concept that revolutionised the traditional model with shaft drive, sold from 1947 to 1958 in hundreds of thousands of examples. There were numerous innovations characterising this new series of models: the engine adopted a duplex chain transmission with a four-speed gearbox and the cylinder was set horizontally; while in terms of the chassis, the most significant novelties concerned the larger 10" wheels and the dimensions of the bodywork. No less important were the improvements to the rear suspension, which abandoned the famous torsion bar for a more efficient motorcycle-style spring-damper unit. For the first time, a Lambretta reached a displacement of 170 cc and could offer high performance with a maximum speed of over 100 kph. This model, which went head-to-head with the Vespa 150 GS, is without doubt one of the most sought after by collectors today. Even the more tranquil LI 125 and 150 were extremely successful, with thousands of examples of this exceptional Innocenti scooter still on the roads today, appreciated for their incredible robustness and stability. Vittorio Tessler, Mr Lambretta covers the entire technical, industrial and social history of these models, while the book is illustrated with hundreds of photographs. **The American City** Arthur Hastings Grant, Harold S.
